

# Bridge of American Dreams

## An invitation

Morton College will host a special community reception in honor of the Bridge of American Dreams coming to Morton College on Friday, February 3, 2017, 3801 Central Ave., Cicero, IL, beginning at 5:30 p.m.

We are respectfully requesting your attendance to our reception at Morton College.

The Bridge of American Dreams is a sixty-foot bridge constructed from tens of thousands of hand-cut children's blocks by Morton high school students, affording them the opportunity to display their representations of the American dream.

Additionally, it serves as an across-the-curriculum enterprise designed to increase cognitive awareness, community spirit, and a positive worldview.

Most importantly, enjoy the inspirational experience of walking across this Bridge of American Dreams.

To view the virtual bridge and enjoy more of the Morton West students' artwork and writings, please visit their website at [www.carteblox.com](http://www.carteblox.com)

This project is being supported by the Sixteenth Street Theater, Berwyn, IL, where a room-size mural of the bridge is on display in their lobby.

Please have your office contact me by phone at (708) 656-8000, Ext. 2216; or email [Blanca.Jara@Morton.edu](mailto:Blanca.Jara@Morton.edu) to confirm your attendance.

Thank you for your support. We look forward seeing you at Morton College.
