Features

MorningBot can be told what to do on the spot. So, if you would like a glass of milk out of the refrigerator, just tell MorningBot and it'll get it for you. MorningBot can also be programmed to perform specified commands everyday. So if you have a routine you would like MorningBot to follow, you can program it and every morning it will go through the same routine.

MorningBot

- Has a built-in alarm clock
- Arms to get the job done
- Prepares your breakfast
- Lays out your clothes
- Will get your bookbag or briefcase ready
- And much, much more!
