

COIN SCANNER PRO

A Favorite in our ever-popular "Scanner" Series

- Target Identification and Depth Meter Indicates probable target and depth detection.
- Illuminated Meter for night hunting, early morning or dusk operation.
- Hip Mountable Electronic Housing removes weight from the operator's arm for more enjoyable hours of treasure hunting.
- Motion Discrimination (Trashout) mode.
- All-Metal (Pinpoint) mode.
- Three-Tone Audio Target Identification classification system gives distinctly different audio signals for different target types.
- Battery Condition monitor on Meter.
- Auto Notch mode Ideal for coinshooters.
- Interchangeable Search Coils.
- Headphone Jack.
- Operates on eight AA batteries.
- Input Jack for charging optional NiCad batteries.

Recommended Accessories:

16" Ultra Deep Scan Search Coil
12" Deep Scan Search Coil
6" Ultra-Lite Search Coil
3" Coin and Prospecting Search Coil
Search Coil Protective Covers for each of the above
Stereo Headset
Protective Vinyl Detector Bag
Epoxy Filled Search Coil - Eliminates the "cork" effect in water.
