

Introducing ... **THE ALL NEW**

Made in the U.S.A.

SHADOW **X5** by Troy

a true **ALL TERRAIN DETECTOR "ATD"**

This rugged new Top-Of-The-Line ATD is designed for those who demand and fully appreciate the merits of TOP-END PERFORMANCE, superior quality, ultra-lightweight and total weatherproof packaging. This compact little Gem is a go anywhere, DO ALL, land detector equipped with features for coinshooting, relic hunting, prospecting, competition hunting, beach hunting and cache hunting. It is specifically created for truly serious folks in search of extremely deep coins, jewelry & relics with the aid of superior discrimination. Prospectors are excited about the X5's features and it's ultra sensitivity to tiny gold nuggets. It also has extra fast response for the Competition Speedsters. The ShadowX5 even does well on most saltwater beaches with it's great sensitivity to gold jewelry. Plus, it has plenty of muscle and depth for cache hunting. It features a short learning curve with Turn-On-And-Go operation and fingertip (on-the-fly) user options, but requires No Cumbersome Programming. It's both fun and easy to use yet lethal in the field.

The ShadowX5:
Designed, engineered and marketed by Troy Custom Detectors Inc. It is assembled and tested with Fisher Research Laboratory's traditional quality standards and is backed by their Limited Lifetime Warranty.
