

INDUSTRIAL

LINE OF FINE METAL DETECTORS

PERFORMANCE & QUALITY FOR OVER 40 YEARS

AUTO SCAN - L

Recommended for high-volume searching for larger targets.

Suggested Retail \$229.95

AUTO SCAN - S

Very sensitive for high security applications. Detects tiny targets as well as large.

Suggested Retail \$229.95

The AutoScan - S

is extremely sensitive on small metals. It gives a very rapid alarm response immediately as you pass over a metal object - even very small knives, guns and other weapons.

INDUSTRIAL AUTO SCAN

White's Auto Scan® PSD is a lightweight, well-balanced metal detector with the sophisticated electronics to handle today's toughest security requirements.

Set-up is completely automatic. Just press the ON pad; the AutoScan self-tunes for detection and checks battery power. A separate OFF pad guards against accidentally turning the detector off. The blinking "ready-light" is your assurance that the Auto Scan is detecting at full sensitivity.

The AutoScan PSD's physical design is non-

threatening, reducing aggravation during the screening process.

Only AutoScan offers you an increase in volume and pitch depending on a target's size. Large metallic objects respond with a strong, high-pitched sound. Smaller objects respond with a clear, lower frequency tone.

A pulsed alarm alerts when the battery reaches a 10% charge level. Because of a very low draw, you can count on at least 50 hours of use from a single 9 Volt battery.

White's AutoScan Personal Search Detector. Light enough for extended use. Totally automatic. With the unequalled sensitivity and reliability security professionals demand.

FOR A WHITE'S DEALER NEAR YOU - **1-800-547-6911** your White's "Direct Connection"

PRL-1

(Property-stake & Ring Locator)

INDUSTRIAL PRL-1

Don't be fooled by the PRL-1's low price and simplicity. For true "turn on and go" ease, built-in performance, with real discrimination, the PRL-1 is the perfect choice. Property stake & ring locator, valve box, manhole covers, shallow pipes and cables. Rugged metal construction and safety-yellow color. Water proof search coil.

DISCRIMINATE OUT JUNK OR PICK UP ALL METALS

Discrimination mode to distinguish between ferrous and non-ferrous metals. Flip the trigger and switch to All-Metal Mode for accurate pinpointing.

Ideal for property stake pins, valves, sprinkler heads, lost keys, jewelry, rings, and small tools.

- ▶ TURN-ON AND GO EASE
- ▶ BUILT-IN AUTOMATIC GROUND EXCLUSION
- ▶ DETECTS ALL METAL/OR DISCRIMINATE
- ▶ SHIPPED WITH POWERFUL 9.5" UL COIL
- ▶ ALKALINE BATTERIES & HOLDER
- ▶ UP TO 80 HOURS OF BATTERY LIFE
- ▶ OPTIONAL NICAD & CHARGER SYSTEM
- ▶ 1/4" HEADPHONE JACK

GREAT RENTAL MACHINE
FULL EASY-TO-READ
INSTRUCTION MANUAL

FOR A WHITE'S DEALER NEAR YOU - **1-800-547-6911** your White's "Direct Connection"

UL-2

(Universal Locator - 2)

FULL EASY-TO-READ
INSTRUCTION MANUAL

ACCEPTS ALL
OPTIONAL UL COILS

Suggested Retail \$499.95

INDUSTRIAL UL-2

Power, sensitivity and features demanded for industrial use. The UL-2 features a sensitivity, and autotune control. Built in ground exclusion balance and Self-Adjusting Threshold (SAT) keeps detector stable in varying grounds. Rugged metal construction and safety-yellow color. Waterproof search coil.

Note -

Sensitivity readings were taken with headphones which allow for the increased detection range of targets that have a softer audio tone. Headphones will also reduce battery consumption.

A powerful tool for locating all metal.
Also locates property stake pins,
valves, and sprinkler heads.

SENSITIVITY CHART

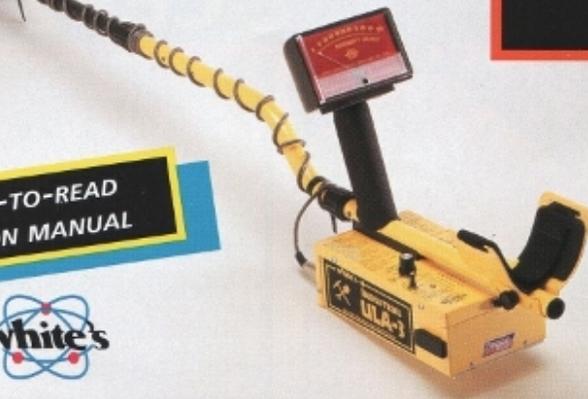

Sensitivity Control	Max.	Med.	Min.
3/4" Wire Staple	10"	7"	3.5"
1.5 Wire Staple	13"	11"	7"

ULA-3

(Universal Locator Automatic - 3)

FULL EASY-TO-READ
INSTRUCTION MANUAL

Suggested Retail \$599.95

INDUSTRIAL ULA-3

**Ideal for finding large metal items.
Capable of the greatest depths.**

The ULA-3 was designed to be used for large and deep targets as well as stakes, property rings, valves, sprinkler heads, and targets smaller than coins. It detects all metals and is capable of great depths.

AutoTrac samples the ground and electronically resets for maximum sensitivity and depth. Works in mineralized soil due to ground balance system. The ULA -3 can be used with all UL Coils. The large 15" optional loop gets the greatest depth - from 3 to 5 feet on large targets. Rugged metal construction and safety-yellow color. Waterproof search coil.

Note - Sensitivity readings were taken with headphones which allow for the increased detection range of targets that have a softer audio tone. Headphones will also reduce battery consumption.

- ▶ AUTOMATIC GROUND BALANCE
- ▶ ON/OFF BATTERY CHECK
- ▶ PINPOINT
- ▶ POWERFUL 9.5" ULCoil
- ▶ "POP-IN" 4-C CELL BATTERY PACK
- ▶ NICAD & CHARGER SYSTEM
- ▶ 2 KNOBS - 2 TOGGLES CONTROLS
- ▶ 1/4" HEADPHONE JACK

CBP₂

(Cans, Barrels, Pipes & Plates)

Suggested Retail \$649.95

INDUSTRIAL CBP₂

Detects large buried targets up to 20 feet deep. Hazardous waste containers from one to 55 gallons. Locates cans, barrels, plates and large metal pieces.

Two modes of operation, "VOID" locates tunnels, caves, wells, and cisterns. "METAL" is used for septic tanks, tools, equipment, pipes, and relics. Racetrack antenna system & "Pro" circuitry for added depth and sensitivity. Signal Balance Control adjusts the receive signals to allow use almost anywhere, regardless of mineralization or outside interference. Adjustable ground balance rejects ground minerals for deep detection even through mineralized soil. PRE-SET control settings for easy

operation. Easy-view meter is used as a battery check and displays signal strength. Rugged metal construction and safety-yellow color.

- ▶ FINDS LARGE VOIDS CREATED BY METAL, FIBERGLASS, CONCRETE TANKS, CISTERNS OR WELL AND CULVERT PIPE
- ▶ CAPABLE OF LOCATING LARGE TARGETS TO A DEPTH OF 20'
- ▶ FULL POWER CIRCUITRY
- ▶ "POP-IN" 4-C CELL BATTERY PACK
- ▶ NICAD & CHARGER SYSTEM
- ▶ 1/4" HEADPHONE JACK

INDUSTRIAL - ACCESSORIES

OPTIONAL LOOPS FOR - PRL-1, UL-2, ULA-3

ULC 1500

Designed for larger metal items, relics, groups of coins, etc. Three feet plus on larger masses of metal.

801-3201-2 - \$149.95

HEAD PHONES

K/W PRO HEADPHONE

Separate volume controls. Gold-plated plug works with stereo and mono jacks. Coiled kevlar reinforced cord. Large padded ear cups. Titanium coated mylar speakers. 1/4" jack. Works with PRL-1, UL-2, and ULA -3.

401-2013 - \$99.95

KOSS HP LITE HEADPHONE

Separate volume controls. Mono and stereo capability. 1/4" jack. Coiled cable. Works with PRL-1, UL-2, and ULA -3.

401-2021 29.95

WeatherBeaters

WEATHERBEATER

Detector cover. Resistant to water and dirt. Fits UL-2 and ULA-3.

601-1153-2 - \$29.95

WEATHERBEATER

Detector cover. Resistant to water and dirt. Fits PRL-1.

601-1153 - \$14.95

CASES

HARDCASE

Hard shockproof case fits PRL -1. Requires disassembly of instrument.

601-1158 - \$99.95

HARDCASE

Hard shockproof case fits UL-2 and ULA-3. Requires disassembly of instrument.

601-1150 - \$99.95

ULC 600

Excellent general purpose locator coil for small to medium size targets up to 8" deep.

801-3188-3 - \$99.95

ULC 600 COVER

Protects loop bottom from excessive wear.

501-4067 - \$4.95

ULC 400

Very small coil for small targets and precision pinpointing. Staples, nails, sprinkler heads, and pinpointing concrete rebar.

801-3198-1 - \$119.95

ULC 400 COVER

Protects loop bottom from excessive wear.

501-4010 - \$4.95

HIPMOUNT KIT

HIPMOUNT KIT

No extension cable. Uses separate SL rod. Stainless steel bracket mounts on control box and allows the angle of the control box to be tilted for optimum display viewing. Works with UL-2 and ULA-3.

802-5171 - \$49.95

BATTERIES & CHARGERS

PENLIGHT HOLDER

Used with PRL-1. Replacement penlight battery holder for PRL-1.

802-7150 - \$9.95

COMBO CHARGER

Used with PRL -1. Offers both overnight and fast charge options. Used only with 802-5211 battery. Used with PRL-1.

509-0022 - \$24.95

NICAD

Used with PRL-1. Rechargeable battery for XLT. Non-memory characteristics. Used with PRL-1.

802-5211 - \$49.95

4.8v NICAD/CHARGER KIT

Used with UL-2, ULA-3, and CBP2. Allows charger to be plugged into battery indefinitely maintaining a full charge. Used with UL-2 and ULA-3.

802-5151 - \$49.95

"Every White's metal detector is hand-built right here in Sweet Home, Oregon".

It is with pride that we put our American Made label on every metal detector we build. At our facility here in Sweet Home, Oregon, we've been proudly building the world's finest metal detectors for almost fifty years now.

It starts in Marketing and Engineering with a plan using the very latest technology to design detectors better than the ones before. Once we've thoroughly tested and refined a new design in the field, it's ready for production. We take raw metal, bend, paint, bake and silkscreen to form a housing. Wire is wound, plastic is formed, and foam is inserted to construct a loop. Rods are bent and punched. Boards are stuffed and soldered. Knobs and displays are added. Manuals are printed in our print shop, and catalogs are designed and written right here.

At every step of the way, quality is foremost. Each detector is quality checked after each process, and bench-tested one more time before it goes out the door. And if you need service, our Customer Service Department does their best to repair your detector quickly so you can get back out in the field.

Finally, finished detectors are shipped out the door here in Sweet Home to virtually every corner of the world.

It has always been my philosophy to keep our people working by keeping our customers happy. I'm proud of our metal detectors, and of the people here at White's who build them for you.
