Judges will remove all stakes from the arena before staking the barrel pattern for the current performance.
5. Barrels will be set in a cloverleaf pattern with the barrels placed on the inside of the stakes with the stake showing.
6. Barrels will be set at least fifteen (15) feet from the fence and, if the arena size permits, the maximum distance to set the barrels:
 - a. Barrel pattern should be situated in such a manner as is centered to the gate with the first and second barrel equal distance from the gate.
 - b. Score line will be sixty (60) feet from the chutes (if arena dimensions allow).
 - c. The distance from the first to second barrel will be ninety (90) feet.
 - d. The distance from the first to the third barrel will be 105 feet and the distance from the second to third barrel will be 105 feet maximum. If the arena size does not permit, the measurements as quoted will be set in proportion to the size of the arena. The starting line will be shortened sufficiently to properly start and stop the horse. The barrels cannot be set any farther apart than the maximum measurements as listed above.
 - e. Small arena or covered (indoor) arena; barrels should be a minimum of eighteen (18) feet from the fence.
7. Judges are responsible for measuring, staking, and marking the barrels and score line before the beginning of the 1st performance and re-measuring before each performance to determine if the stakes are still in their original place. Measuring will be done with a tape measure. Judges must turn in the measurements, in feet and inches, to the secretary to record and post before the 1st performance.
8. If lasers are available in the facility, they may be used in the place of barrel stakes if they meet the distance requirements set forth above. Barrels are to be centered with laser beam.
9. The flagman's place and timers will be staked.
10. Producers will make arrangements for the barrel pattern/arena to be groomed by dragging prior to the performance and before the slack. No more than ten (10) entrants will run in one (1) drag unless it is due to late entry; no shows will not change positions.

11. No practice runs will be permitted for the duration of the rodeo after the barrels have been staked with the barrels sitting on or closer than fifteen (15) feet from the stakes. The only exception being exhibition runs made after the contest runs.
12. Entrants will start their run from entrance of the arena floor and move in a forward direction, if the gate is in the center of the barrel pattern. You cannot enter the arena and set your horse. The entrant is not required to begin their run from an off-center gate or alley. When the alley is split or double, the entrant may be required to begin their run from the mouth of the alley, if they have a choice of either alley.
13. If all barrels are standing when a contestant crosses the score line after completing a qualified run, it is considered a penalty free run, even if a barrel falls after she is flagged.
14. An entrant will not be disqualified or penalized for touching a barrel.
15. There will be no talking to the flagman, timer, or judges during the barrel race. Both judges will be required in the arena during the event, one (1) judge flagging the line and the other watching to see that a qualified cloverleaf pattern is run. The flagman (judge) is not to leave his place unless it is visibly marked and must flag from a standing position. If a barrel is knocked over, the judge not flagging, or a person designated by the judge, will reset the barrel in its place.
16. Re-runs will be given, at the judge's discretion, should an entrant be fouled. Any penalties incurred during the original run will be at the judge's discretion.
17. If an entire performance or part of a performance should have to be re-run due to the barrels being placed improperly, the entrants will run penalty free.
18. When using an electric timer, a flagman and two (2) stopwatches will back it up.
19. If the electric timer fails on a single barrel racer, the barrel racer has the option of hearing her stopwatch time and either accepting the stopwatch time or making a rerun. Decision must be made before the next barrel racer competes. Any re runs will carry over all penalties accumulated during the first run, thus no re runs will be awarded for broken patterns. Re runs will not accumulate any additional penalties as long as the judge determines the contestant made an honest effort to compete.
 1. If the electric timer fails three (3) times during 1 night's performance, hand held times will be used. If the failure occurs during the rodeo performance, the entrants affected will run last in the slack and the pattern will be groomed by dragging before the re-runs. If the failure occurs in the slack, a reasonable amount of time will be given to the entrant to re-run.
 2. Contestant will be fined and disqualified for whipping her horse in front of the shoulder in the arena.
 3. Contestant may be fined and/or disqualified for working her horse on the stakes. If a contestant wishes to work her horse, it must be at least twelve (12) feet off the stakes (to one side or the other, but not around). Failure to do so will result in a \$50 fine.
 4. In the event the ground is too dangerous to run the barrels on the original stakes, at the judges' discretion, the barrels should be moved, and the barrel race jackpotted each night with any money prorated. Points for each night will be counted towards the Finals.

PENALTIES

1. A five (5) second penalty will be added to the entrants' time for each barrel knocked down.

2. If a horse breaks its pattern, they can return to the point the error was made and finish the pattern. No schooling (i.e. circling the barrel several times) will be tolerated. If the horse should run off and cross the time line going out of the arena, the entrant will not return to the pattern. A \$50 fine will be assessed for a return run.

DISQUALIFICATIONS

1. If after crossing the score line and being flagged by the judge, her re-crosses the score line before completing a true cloverleaf pattern.
2. Not continuing in a forward motion after entering the arena floor.
(No circling or setting up is allowed.)

10. If not published on the ARA website, the points will not count.
11. Entrants are required to be entered no later than thirty (30) minutes prior to performance start time and positions will be drawn. Junior Barrel racers also may have the option to call and enter the rodeo during rodeo call in time.
12. Secretaries must provide a notice to non-members about the ARA ground rules.

BREAKAWAY CALF ROPING

1. An automatic barrier must be used at all rodeos for breakaway roping. The maximum length of the score shall be eighteen (18) feet, score equaling the length of the box minus four (4) feet. All score lengths are subject to approval of the Director or representative's approval.

2. All breakaway calves must be in similar breeding and weight not to exceed 400 pounds and horns not to exceed two (2) inches in length. Animals used for this event should be inspected and objectionable ones eliminated.
3. One (1) loop only will be permitted in any long go rounds, averages, or finals. A dropped loop is considered a thrown loop. Roping the calf without releasing the loop from the hand is not permitted.
4. Ropes are tied to the saddle horn with a nylon string provided by the contestant. A handkerchief or other colorful cloth must be attached to the end of the rope.
5. The field judge will flag the contestant when the rope breaks away from the horn.
6. A legal catch is a bell collar catch. Bell collar catch is defined as passing over the calf's head and not including any appendages, including figure-eighting the tail.
7. There must be a spotter, not in association with any member entered in the event, in the arena to help flag judge determine bell collar catch. He must be situated directly across from flagger on other side of the arena. The spotter is to remain consistent throughout the rodeo.
8. Contestant will receive no time should he or she break the rope from the saddle born by hand or by touching the rope or string after catch is completed. However, if the rope should dally around the horn, the contestant may ride forward, UN-dally the rope, and then stop her horse to make the rope breakaway.
9. There is a ten (10) second penalty for breaking the barrier.
10. Breakaway calves may not be used for the calf scramble, unless the event is complete at that rodeo.
11. All breakaway ropers must abide by the ground rules of the approving association (i.e. UPRA 1st rodeos will not allow boy competitors in the breakaway). ARA points will count for the eligible contestants only.
12. The age limit for boys competing in the Breakaway Roping is boys who are age thirteen (13) and under on the last day of the fiscal year (the last day of February).
13. Boys competing in the Breakaway Roping must declare Breakaway Roping when membership card is purchased and may not compete in the Tie-Down Roping. If a contestant chooses to move up to the Tie-Down Roping all accumulated points will be lost.
14. Contestant must be on his or her horse when the time is taken or receive a no time.

3. Producers have the option to allow team ropers to enter twice. Team ropers must change partners or change ends.
4. A separate set of cattle must be used in this event, unless one event has been completed before the start of the second event.
5. Money won in 50 and Over Team Roping will only count for Women's All- Around points.

1. A veterinarian will be in attendance or available and will examine, treat or recommend disposal of any injured animal after its removal from the arena. When destruction is recommended, it will take place as soon as possible.
2. A conveyance, of a type on which injured animals may be easily placed without causing additional injury must be available to remove animals from the arena.
3. A pen or truck bed will be prepared to receive injured animals removed from the arena with an adequate bed of straw or other appropriate bedding laid down for comfort.
