

LESSON GRADING

Each component of your lesson will be scored in the following manner:

SCORE

- 95-100 – Assignment was **thoroughly mastered**: no mistakes or other problems evident
- 90-95 – Assignment was **nearly mastered**: a few minor mistakes encountered
- 85-90 – Assignment **fairly successful**: a few passages or concepts require more attention
- 80-85 – Assignment **needs improvement**: several passages or concepts that required more attention – may be reassigned
- 75-80 – Assignment shows **minimal success**: several concepts simply not mastered – will be reassigned
- 70-75 – Assignment **not adequately prepared**: several concepts not performable *AND* apparently no attempts made to “figure it out” – will be reassigned
- 65 – **No practice or improvement evident**: will be reassigned

These scores will be averaged to yield your grade for that lesson, so

ALL ASSIGNMENTS ARE IMPORTANT!

Arriving late for a lesson or forgetting lesson materials will automatically lower your grade for that lesson by 10 points.

BE ON TIME – BE PREPARED
