*\*As always, it is the user's responsibility to determine the proper protective apparel required for each application, since conditions of use are outside our control.*

Introducing **ViroGuard™**, a new line of protective apparel for hazardous liquids in unique applications. This new line of protective apparel is comfortable to wear and offers breathability through enhanced moisture vapor transmission yet holds out many dangerous liquids and particulates. This fabric passes **ASTM F1670/1671** testing for blood, body fluids and blood-borne pathogens.
