- Kurt Chowanski made a motion to have the next meeting at the Ale House 2nd by Jason McNabb – Voted and Passed
- Ron Yahne Discussed benefits of joint membership with the Access Fund. Benefits are that the Access Fund helps climbers keep and gain access to areas but lobbying for climbers rights and purchasing land to have for climbers. They also help with trail maintenance and plan to help here in the Black Hills. Access in other areas of the country can get closed very quickly and easily, it is great we have such a great relationship with the local land managers, we need to continue with that. It is great to support a nation wide group who helps areas with this.
- Please go to the web site and pay your joint membership for the coalition and access fund. With the exception of a few new members who just signed up for the joint membership, all memberships expire Jan 1st 2013.
