“Building Our Future”

CACF’s Spotlight on Our Youth

In the month of June, Mrs. Manns’ grade 3/4 class at R. J. Waugh school in Carberry took on a task presented to them by the Carberry and Area Community Foundation. The children were asked to create a poster about something they liked about their community. At the end, many had come up with wonderful ideas and had put together beautiful posters. Pictured below are the students working on those posters. Their ideas included places like the arena, the school, the playgrounds, the hospital, the library and many others.

On June 28th, one of the board members from the foundation met with the class. The posters were presented and she told the kids what the foundation does and how it helps to make their favourite spaces in town great. She told the kids that the reason we did these posters was to help connect them with what the Community Foundation was, and how it works together with the community to bring ideas and projects to life to make our town and area a better place to live.

As part of connecting the class with another group in town, the agriculture society, the posters were collected and entered into the fair for judging and prizes. Our hope in doing this project with this group of children was to give them the knowledge of what work the foundation supports in the area and encourage them to come up with ideas to share on how we can make the community a stronger and happier place for the future!

Thank you, Mrs. Manns and the Grade 3 / 4 class! You were a pleasure to work with!
