Skulduggery Pleasant is a great adventure book. It revolves around the famous skeleton detective, Skulduggery Pleasant and his trusty sidekick, Valkyrie Cain. Together they go on an adventure full of monsters and betrayal to find out who killed Stephanie's uncle, Gordon. As they go on this adventure Valkyrie slowly starts to accept that the world she used to live in was no more than an illusion and that magic really exists.

This book was really interesting book because of the fast paced, non-stop action. Every single page added more details to the story to create a wonderful adventure book. I would recommend this book to anybody middle school and above.
