The Dead Tossed Waves is the sequel to *The Forest of Hands and Teeth*. If you have read *The Forest of Hands and Teeth*, *The Dead Tossed Waves* is placed after the main character has grown up and replaced the lighthouse keeper. The new main character is now Gabrielle who her daughter and she lives right near the ocean with her mother and lives happily and safe until one day she and her friends all make a horrible decision which leads them to a world of zombies and death.

I thought this book was a major improvement compared to *The Forest of Hands and Teeth* and I thought it had more action scenes than the older book. It still had the same romance, but a book can't be perfect right? If you read *The Forest of Hands and Teeth* I would definitely recommend this book to you.
