Lawn Maintenance Calendar

Transition Zone (Cool-season grasses)

Task	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec
Fertilization ¹				X	X	X			X	X		X
Cultivation ²			X	X	X				X	X	X	
Over-seeding			X	X	X				X ³	X	X	
Pre-emergence Crabgrass Control			X	X								
Post-emergence Broadleaf Control				X							X	
Sod Webworm						X	X					
White Grubs							X	X	X			
Chinch Bugs						X	X	X				

¹ This assumes lawn does not have irrigation; can fertilize in July if irrigation is present. Late September and October are key times for fertilizing.

² Lawns should be actively growing.

³ Seed in September; this is the best time between fall and spring.
