

## Prop wash

Date: January 1, 2018

Members:

Well it happened again ! Yes, another interesting and very cold day of flying at the Marshville Airpark.

The wind was " QUITE BLUSTERY " most of the time and this made things very cold and tricky.

*Some pics to look at.*

# Ralph flying in shirt sleeves in December !!

This didn't last long.

Ralph and Andy dressed for the cold and they were still cold but flew the plane.

There was quite a good turnout for the 5 - F flying event.

*The hardy ones.*

*Where were YOU !*

*There were 3 BQ's on the go  
resulting in some fine dining.*

John Rivier put together a great mixture of everything he could find resulting in a hot bowl of something !!

*It was goooooood.*

Tom & Sandee Gaylor brought a mixture of "beans & wieners.

*also very goooood.*

Mr. Cuke , Al Pender, cooked up some hamburgers.

These were served on homemade biscuits made by Nancy Fakla and topped off with tomatoes etc.

I was hungry and I ate !!

***There was also some flying !***

Sandee Gaylor presenting an artistic endeavor !

***The snow angel in progress !***

*Sandee flying her kite !*

Tom Bateman broke a chair !!!

This could result in an increase of dues.

# *The shelter !*

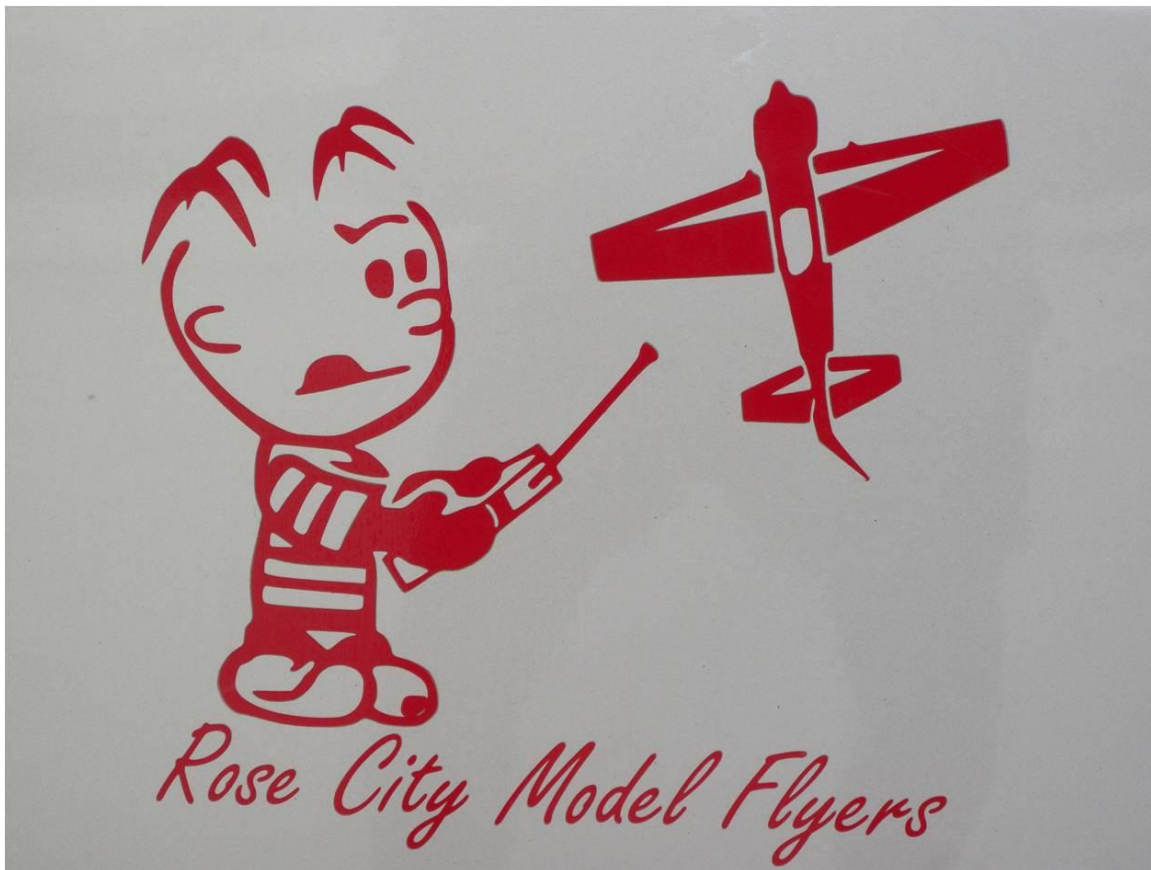

Today proved to be a pretty good day at the Marshville Air Park. There was food, friendship, fun, flying and cold weather. There was even some great flying.

For those that couldn't make it out, there is always another day and the hope that you can be part of the action.

We will be there, hope you can join us.

Bob

*Where the flying season never  
ends!*
