-Tim Ryan for America, mindfulness advocate, Congressman, Presidential candidate

As a sangha, to do less harm to our living planet let us endeavor to:

1- Stop using non-recyclables at our socials (Incl. 'Solo' cups)

2- Use our own water bottles. Don't buy bottled water

3- Reduce unnecessary printing of flyers...we're doing this!

4-Carpool whenever possible.

5- Repair, reuse, recycle

6- Curb our consumerism and become more frugal

7- Join the email list of ONEEARTHSANGHA.org

8- Keep meditating: as we become more mindful, we become greener!
