Tie-X Paste

B-vitamin paste formulation with 710mg of Niacinamide (niacin) per tube. This supplement will top up any deficient B vitamins prior to workout or race allowing for optimal muscle performance.

Tie X Paste Paste is an excellent source of B Vitamins and will benefit training and pre-race preparation to facilitate energy production and oxygen delivery to the working muscles.

B12 has been known to increase red blood cell production and works synergistically with B1, B2, and B3 in the conversion of carbohydrates and fats to furnish the energy required for cardiac and central nervous function, muscle contractions and digestion.

Race and competition horses will benefit from Tie X Paste Supplementation, as well as horses on broad spectrum antibiotics, young horses with incomplete hind gut microflora and senior horses with reduced digestive could also benefit with additional B Vitamins.
