

MN COMMUNITY ACUPUNCTURE

## Temporarily Closed

**EFFECTIVE Wednesday 3/18**

We have made the difficult decision to close temporarily in order to slow the spread of COVID-19. While we have been keeping our clinic safe under CDC guidelines as these have changed we have determined that in the interest of patients and staff it is best if we close temporarily. We want to do this before there are any issues.

Right now we are planning to re-open April 7th. Obviously things are changing day by day so we'll keep you informed if that changes. Please check our website [minnca.com](http://minnca.com) for an update on our re-opening or you may call our clinic and the voicemail will also be updated. We will be checking messages if you need anything or have any questions. Also, if you are taking an herbal formula and need refills please leave a message and if available, we can ship herbs to your home.

We apologize for the inconvenience and did not make this decision lightly knowing how many of you depend upon us. We are thinking of you all and are looking forward to getting through this together. See you in April!
