Growth Technology - the houseplant care specialists

For more than 30 years Growth Technology has been developing and manufacturing horticultural products with liquid nutrient production as its core business.

Growth Technology prides itself on providing exclusive products of the highest quality, accompanied by great service, fast delivery and support.

Stockist support includes information leaflets and in-store visual product support, as well as help with organising popular events that attract customers and increase sales.

To date it has developed an extensive worldwide customer base and a wide range of products under highly recognisable brands such as Orchid Myst, Orchid Focus Repotting Mix, Cactus Focus, Chilli Focus and others.

Growth Technology Ltd.
Great Western Way, Taunton, Somerset TA2 6BX, United Kingdom

gcsales@growthtechnology.com www.focus-on-plants.com

Why Growth Technology?

Quality:

We manufacture the highest quality fertilisers available anywhere. Our fertilisers contain all essential nutrients for healthy, vigorous growth derived from the purest, most soluble mineral salts. We do not use urea in any of our fertilisers.

Natural additives: Nutrients in the Focus range are enriched with seaweed, humic acid and fulvic acid where appropriate to give plants the best growth enhancers and to support long-term soil fertility.

Design and presentation: Our products are uniquely designed and their presentation helps sell volume.

Saleability

Best sellers: Orchid Myst 100 ml, Orchid Focus Repotting Mix 3 litres and Cactus & Succulent Focus Repotting Mix 2 litres are the best-selling products in their categories in UK Garden Centres. Many of our products feature regularly in the Garden Trade News top 50 best-selling products.

Convenience: Growth Technology nutrients are available in convenient 100 ml bottles, as well as larger sizes. We manufacture a wide range of high quality plant-specific and all-purpose fertilisers.

Exclusivity: Our products are not available from high street retailers or from out-of-town sheds.

Support:

Stands: We supply stockists with leaflets, as well as stands to feature our products and TV screens for educating customers and increasing sales.

Events and talks: We help stockists to organise popular orchid, houseplant and terrarium events with experienced speakers, that bring people in and help sell plants and products. We supply posters, flyers, banners and a PA system.

Mail order: Most of our products are ready to send by mail order. Our nutrient bottles are heat sealed (except 5 litre).

Made in Great Britain:

All of our nutrients are manufactured in our factory in Taunton, Somerset.

Orchid Days & Houseplant Days

Why host an event?

- Themed days and events attract many customers and increase loyalty.
- They increase sales of plants and sundries, and traffic to the restaurant or cafe.
- They promote the Garden Centre and provide customers with a unique service.

Tailor-made posters and flyers to promote your event

Indoor banners for better awareness of the event on the day

We help organise over 120 days and weekends per year. For a small contribution to costs and subject to a minimum order, you get:

- An experienced speaker to provide customers with all they need to know. The day normally includes two talks and repotting demonstrations.
- Posters, flyers and an outside banner to help advertise the event. Help with social media campaigns and draft PRs are available on request.
- A PA system and indoor banners for better awareness of the event on the day.
- A variety of talks to choose from for a tailored event. The most popular combinations are two orchid talks or an orchid talk and a houseplant talk.

Talks are only available to Growth Technology stockists and subject to the appropriate listings. The overall promotion and organisation of the day remains the responsibility of the Garden Centre.

NEW FOR 2020

Terrarium Workshops

For those who stock our terrarium range of glassware, decorative gravel etc., we can help with the organisation of terrarium workshops and provide an experienced speaker, as well as helping with product promotions on the day.

'Our orchid day was a **huge success** with over 80 people attending the talks. Houseplants and sundries sales were much increased as a result.'

Parker's Garden Company

'Very good, enjoyable days with good communication throughout the planning stages. **Wonderful feedback** from everyone that attended.'

Whitehall Garden Centre

'Extremely positive feedback and a **boost to sales**. A great day worth having.'

Stephen H. Smith's Garden & Leisure

'The event has proved, once again, to be **very successful**. We're really looking forward to next year's event!'

Tong Garden Centre

'A great way to increase **orchid sales** as well as associated sundries. We hold orchid events twice a year in all our stores. They attract many customers and provide a unique and great service. Thank you, Growth Technology.'

Scotsdales Garden Centre

'The Orchid Weekends across our three centres over the last four years are a **very popular event** on our calendar. The guest speakers are knowledgeable and our customers look forward to them.'

The Gardens Group

'**Extremely interesting** and amusing talks. The speaker's enthusiasm is infectious!'

Garsons

'Our sales of orchids and orchid care products were certainly boosted both on the day and in the weeks following. **We have already booked our next event!**'

Henry Street Garden Centre

Our team of Orchid Experts includes:

Chris Channon
retired professional orchid grower;
RHS Gold Medallist.

Ian Parsons
Vice President of the
British Orchid Council.

Peter White
professional orchid
grower and President
of the Orchid Society
of Great Britain.

**Manos Kanellos,
PhD**
Plant physiologist
and author.

Orchid Myst

Complete care for orchids

Orchid Myst is a revolutionary way to provide orchids with all the necessary nutrients – both mineral and organic. Specifically formulated to prolong flowering and provide complete care for orchids.

Misting regularly with a low concentration nutrient solution such as Orchid Myst is probably the best way to feed orchids.

Orchid Myst has maintained a continuous presence in Garden Trade News 'The UK Garden Centre Charts' Top 10 since its launch in 2009.

*Attractive presentation
dispensers –
20 x 100 ml, 12 x 300 ml*

Available in
100 ml, 300 ml and
750 ml trigger sprays

Houseplant Myst

Complete care for houseplants

Houseplant Myst is a convenient and effective way to feed houseplants. It is formulated to suit most indoor houseplants such as Anthuriums, Ferns, Dracaenas, Ficus, Palms, Poinsettias, as well as Cacti, Succulents and Bromeliads.

Misting regularly with a low concentration nutrient solution such as Houseplant Myst is the perfect way to feed plants.

Attractive presentation dispensers –
20 x 100 ml,
12 x 300 ml

Available in 100 ml, 300 ml and 750 ml trigger sprays

Air Plant Myst

Complete care for Tillandsias

Air Plant Myst is the ideal way to feed air plants (Tillandsias) and provide them with humidity and all the necessary nutrients for healthy growth. Ready to use.

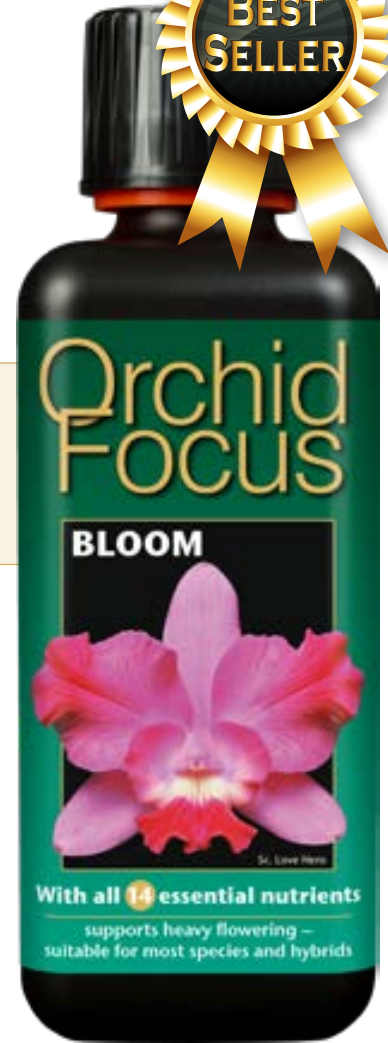

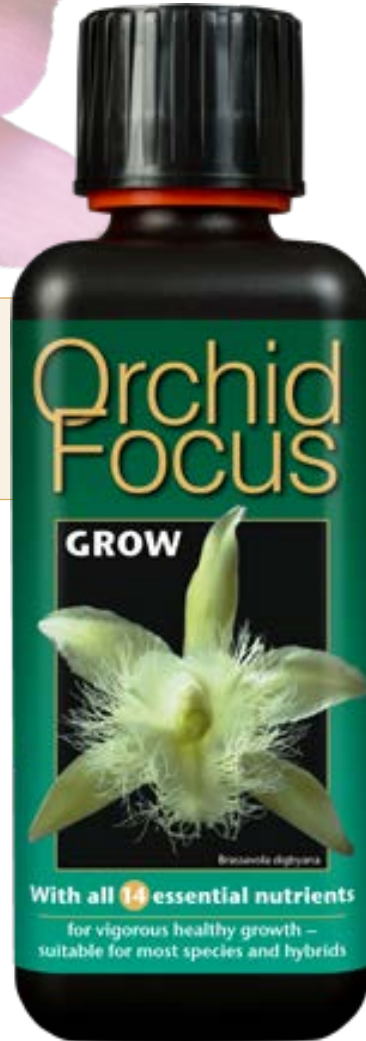

FREE informative leaflets for point of sale use - see page 34

Available in 300 ml trigger spray

Orchid Focus

Formulated to the highest standards for the specific nutritional requirements of orchids.

Orchid Focus Grow and Orchid Focus Bloom do not contain urea, which can be harmful to orchids.

The Orchid Focus feeding programme is recommended by

The Eric Young Orchid Foundation

the leading UK authority on orchid hybridisation.

Orchid Focus is available in 100 ml, 300 ml and 1 litre

GROW and BLOOM formulations

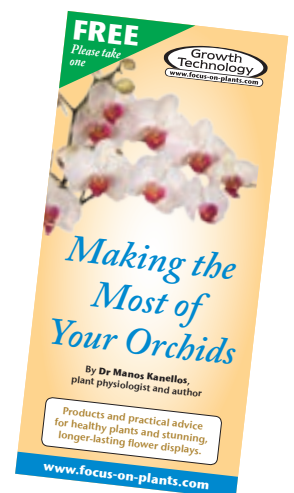

Vegetative stage:
Orchid Focus Grow has high levels of nitrogen, to encourage the growth of healthy shoots and leaves.

Flowering stage:
Orchid Focus Bloom has enhanced levels of phosphorus and potassium to support and prolong heavy flowering.

Orchid Focus Repotting Mix - see page 19

FREE informative leaflets for point of sale use - see page 34

Organic

Orchid Ultra

The ultimate growth enhancer specifically for orchids

Orchid Ultra is richly endowed with pure humic and fulvic acids, to encourage healthy growth and heavy flowering. It should be used in conjunction with Orchid Focus Grow or Bloom.

UNIQUE PRODUCT

Available in 100 ml and 300 ml

Orchid Care Gift Pack

An ideal gift for orchid lovers

Now the complete feeding programme in one set, for convenience and value.

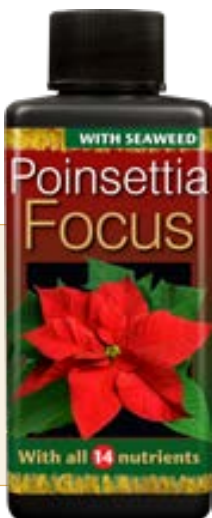

An Orchid Care Gift Pack makes an ideal present for anyone with a small collection of orchids who is serious about making the most of their plants.

Available in 3 x 100 ml

Poinsettia Focus

Seasonal Special!

For healthy, bright Poinsettias

Poinsettia Focus is designed to support healthy, vigorous growth and bright colours with a rich supply of organic plant acids and pure concentrates of seaweed.

UNIQUE PRODUCT

Available in 100 ml

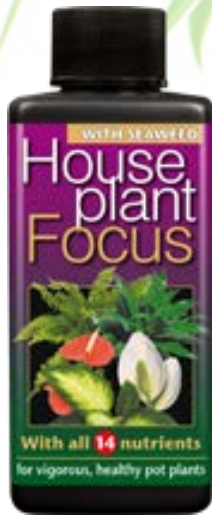

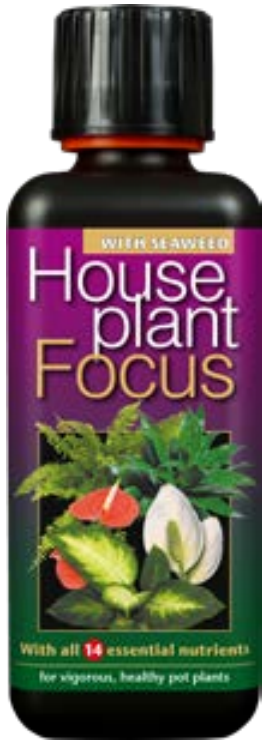

Houseplant Focus

Balanced nutrition for all indoor houseplants

- Houseplant Focus will provide all the necessary nutrients needed by the plant to compensate for the declining fertility of the substrate
- Manufactured to the highest standards from pure mineral salts and rich organic nutrients

All 100 ml Focus nutrients are supplied in a handy display box of 12

Repotting Mixes – see pages 20–21

Available in 100 ml and 300 ml

Ideal for houseplants

The ultimate root promoter

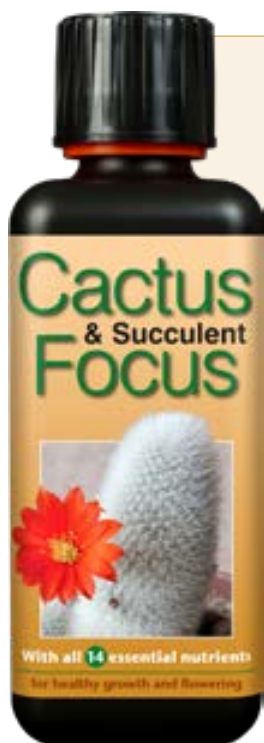

- A complex blend of pure organic plant extracts, seaweed and vitamins that ensures the plant thrives in the new environment
- Root Ultra promotes strong, vigorous, healthy rooting and minimises transplant shock

Available in 300 ml

Root Ultra

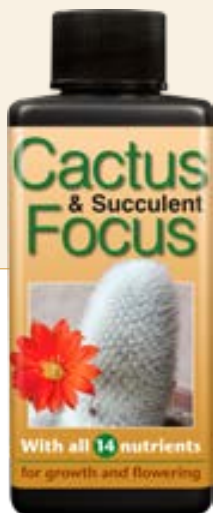

NEW

Cactus & Succulent Focus

Balanced nutrient solution for cacti and succulents

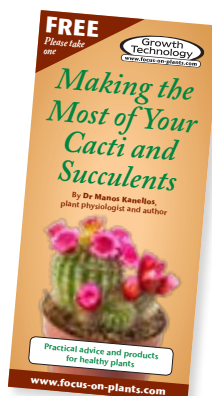

- Specifically formulated for healthy growth and flowering of the widest range of cacti and succulents
- Contains all necessary macro- and micronutrients, as well as organic plant extracts such as humic and fulvic acids

Repotting Mixes – see pages 20–21

Available in 100 ml and 300 ml

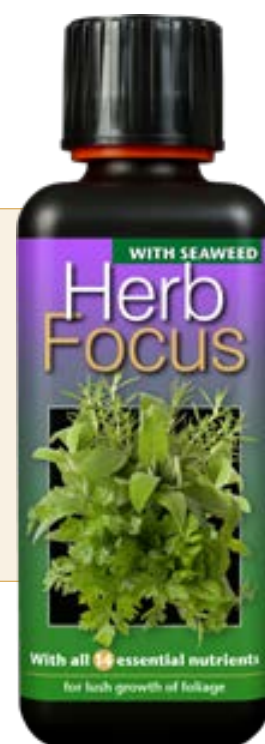

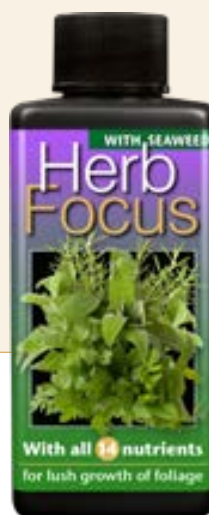

FREE informative leaflets for point of sale use – see page 34

Herb Focus

Balanced nutrition for culinary and medicinal herbs

- Ideal for potted herbs such as parsley, basil, coriander, thyme and dill
- Herb Focus is formulated for the needs of leafy herbs and is based on over a decade of experience with commercial production of herbs

Available in 100 ml and 300 ml

Bonsai Focus

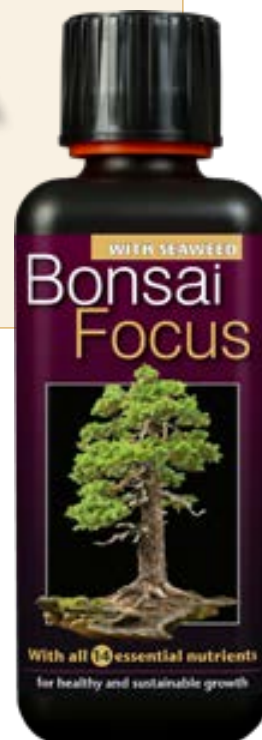

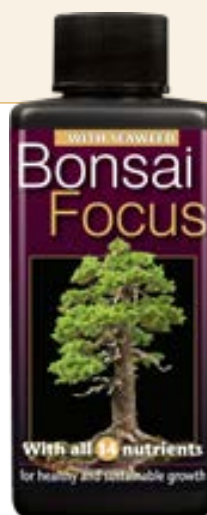

Balanced nutrition for all Bonsai plants

- Enriched with humic and fulvic acids, as well as seaweed, to maintain peak fertility in the soil
- For use in very small amounts of soil as recommended

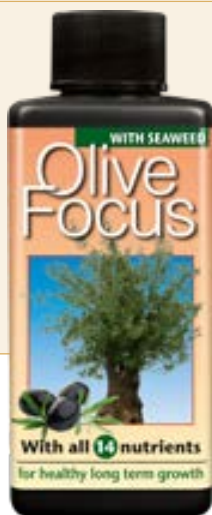

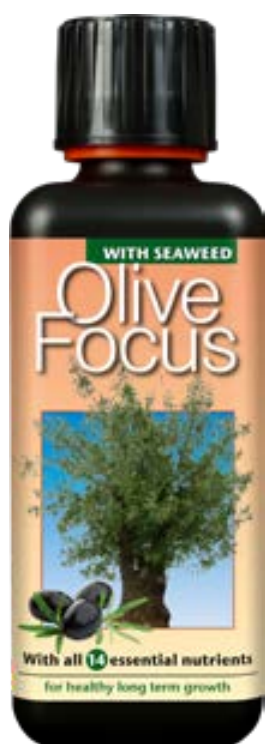

Repotting Mixes – see pages 20–21

FREE informative leaflets for point of sale use – see page 34

Available in 100 ml and 300 ml

Olive Focus

Balanced nutrient solution

- Ideal for plants grown in patio containers, in the greenhouse or conservatory
- Olive Focus will give healthy long term growth and fruits
- Used extensively in commercial olive growing in Australia

Available in 100 ml, 300 ml and 1 litre

Citrus Focus

Balanced nutrient solution for all citrus plants

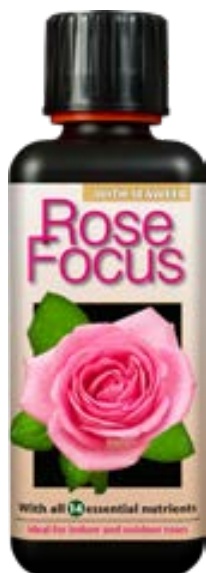

- Ideal for all citrus trees (oranges, lemons, mandarins and tangerines) in containers, in the greenhouse or conservatory
- High levels of humic and fulvic acids to increase and maintain soil fertility

Repotting Mixes – see pages 20–21

Available in 100 ml, 300 ml and 1 litre

Rose Focus

Balanced nutrition for all indoor and outdoor roses

- Rose Focus is formulated to meet the nutritional requirements of roses
- For prolonged flowering and bright colours

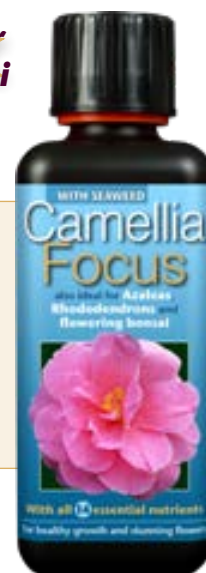

Available in 300 ml and 1 litre

Camellia Focus

Also suitable for flowering bonsai

Balanced nutrition for all ericaceous species

- Camellia Focus is suitable for azaleas, rhododendrons and all acid-loving plants including blueberries
- It is a precisely targeted nutritional formulation – enriched with complex organic plant acids, as well as seaweed

Available in 300 ml

Chilli Focus

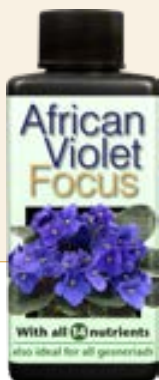

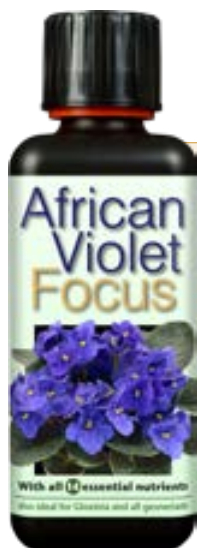

Unique, balanced nutrient solution for chillies and peppers

- Chilli Focus is based on commercial chilli nutrients, as manufactured by our company for over twenty years
- Probably the best nutrient solution on the market specifically formulated for chilli and pepper plants

Available in 100 ml, 300 ml, 1 litre and 5 litres

African Violet Focus

Balanced nutrition for African Violet, Gloxinia and Streptocarpus

- Manufactured from pure mineral salts. It also contains high levels of humic and fulvic acids designed to increase and maintain soil fertility

Available in 100 ml and 300 ml

Repotting Mixes – see pages 20–21

Palm Focus

Balanced nutrition for all palms

- Precisely formulated for the needs of palms, especially for those grown in pots and containers
- Palm Focus is designed to support healthy, vigorous growth and long term viability, with its rich supply of organic plant acids and pure concentrates of seaweed

Available in 100 ml, 300 ml and 1 litre

Green Future

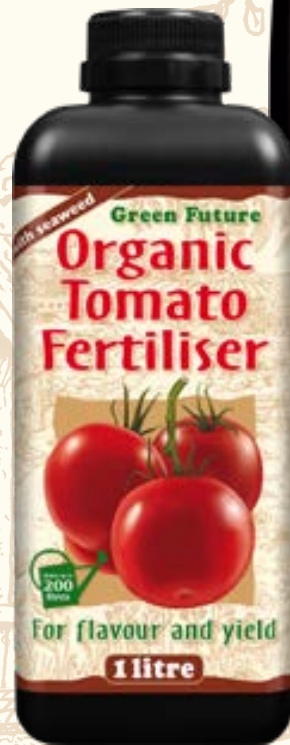

A superior range
of organic
nutrients

Organic Tomato Fertiliser

Specifically formulated for tomatoes, also suitable for cucumbers, peppers and aubergines.

This superior product is designed to encourage strong, healthy growth and promote heavy crops of tomatoes with really great taste.

Available in 1 litre, 2 litres and 5 litres

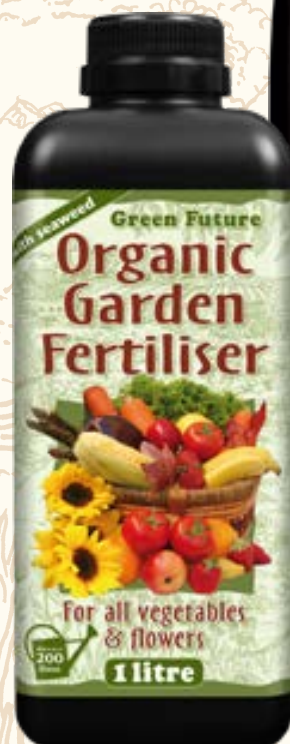

Organic Garden Fertiliser

All purpose for vegetables, fruit trees and shrubs.

A balanced nutrient solution designed to support healthy, vigorous plant growth with prolific and tasty fruits or supreme floral displays.

Available in 1 litre, 2 litres and 5 litres

Enriched with humic and fulvic acids for exceptional plant growth, soil fertility and increased uptake of nutrients.

Orchid Myst Repotting Kit

All you need to help your orchid flower again

Orchids need to be repotted every 12 to 18 months. For the customer who wants to repot an orchid – to encourage growth and flowering – this is an easy and convenient option.

The new version of this popular product contains:

- A 13 cm Clear Orchid Pot filled with Orchid Focus Repotting Mix
- A 100 ml bottle of Orchid Myst
- Step-by-step, illustrated instructions

See also Repotting Mixes – pages 20–21

This horticultural medium-grade grit is uniform, lime-free and washed.

BetterGrow

Horticultural Grit in a convenient 2 litre tub

Private Label Nutrients

High quality nutrient solutions to order

Both our organic nutrient range and our mineral fertilisers are available for private label or tailor-made sizes. We offer superior quality at competitive pricing with minimum investment.

We offer:

- **Superior quality nutrients**
- **Small minimum volumes**
- **Fast service**

If you want to explore the opportunities for private label fertilisers, please contact us at gcsales@growthtechnology.com

TERMS & CONDITIONS OF SALE

Terms & Conditions of Sale of Growth Technology Ltd and its agents, hereinafter referred to as "The Company".

GENERAL CONDITIONS

In the event of the purchaser's order containing special conditions, that order will only be accepted by The Company on the understanding that those conditions are not at variance with our own, or if there is any variance, that such conditions have been waived by the purchaser.

PRICES

Prices quoted are "Net Trade" and are exclusive of Value Added Tax. Value Added Tax will be charged at the applicable rate at the date of dispatch. Prices/charges will be those ruling at the date of dispatch and, whilst every endeavour has been made to ensure the accuracy of prices quoted, no responsibility is accepted for any error or omissions. Growth Technology reserves the right to change prices at any time without advance notice.

RETENTION OF TITLE

Property and title to the goods shall not pass to the purchaser until all sums, including interest or legal costs due or owing to The Company or to its agents, however arising, have been received by The Company's bank and credited to The Company's account. The Company reserves the right of lien and stoppage in transit and the right of resale of any goods when any said sums are due or owing.

SETTLEMENT TERMS

Strictly end of the month following date of invoice. The Company reserves the right to claim/charge interest at 5% above Bank of England base rate, on any said sums which are not received by The Company or The Company's bank by the due date.

DELIVERY TERMS

The Company will use its best endeavours to meet the estimated delivery times, but cannot accept liability whatsoever for failure to do so. Non-delivery or any delivery discrepancy must be reported in writing within seven days from date of invoice.

ORDER CANCELLATION

Cancellation of a purchaser's order can only be accepted after prior negotiation and agreement.

LIABILITY

All goods and information are supplied in good faith and the purchaser shall be responsible for ensuring the fitness of purpose for the purchaser's applications. The Company and its insurers accepts no liability of direct or consequential loss, damage or injury arising from supply of goods or errors in information provided by The Company however the same may arise. In addition the purchaser shall save The Company harmless from and indemnify The Company for all liability, loss, costs, expenses or damages howsoever caused by reason of any goods (whether or not defective) or any act or omission of The Company, including but not limited to any injury (whether to body, property or personal or business character reputation) sustained by any person or to any person or to any property, and for infringement of any patent rights or other rights of third parties, and for any violation of municipal state or federal laws or regulations governing the products of their sale, which may result from the use of sale or distribution of goods by the purchaser.

COPYRIGHTS & PATENTS

The Company will retain the design and manufacturing copyrights of all goods. The Company owns full copyright in respect of all its catalogues and their reproduction in part or in whole is prohibited without The Company's prior written consent.

RETURNED GOODS

No goods can be returned for credit unless agreed with The Company. All goods returned under this category must be received in their original supplied condition. The purchaser will bear all costs of returning goods.

TRADING ACCOUNT

To open a monthly credit account, please supply bank details and two trade references. Any credit limit granted to the purchaser shall at all times be at the discretion of The Company and may be reduced, suspended or withdrawn at any time without prior notice.

FORCE MAJEURE

All contract and transactions are subject to force majeure.

EXPORT REGULATIONS

Purchasers are responsible at their expense for obtaining any licence and complying with any export regulations in force within the United Kingdom and in the country of destination.

LAW

All transactions and disputes will be governed by English Law.

WARRANTY / GUARANTEE

Any defect which under proper use appear in the goods supplied, within a period of twelve months (or less if otherwise stated) after delivery and which are due to faulty materials, workmanship or design, will be made good by us, either by repair or at our opinion by replacement provided the goods or the defective parts thereof are returned to us, carriage paid and suitably packaged within the guarantee period or one month thereafter, together with a claim in writing which specifies the date of purchase and the original invoice/delivery note number.

PAYMENT DIRECT TO BANK

If you wish to pay direct to our bank account, please phone through your payment details to us, or email accounts@growthtechnology.com, following the transaction. We can then allocate payment to your account as soon as possible.

Our Bank details are as follows:

Orchid Focus Repotting Mix

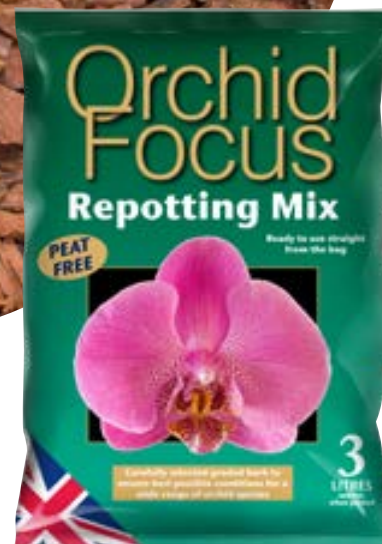

The best selling
orchid medium in UK
Garden Centres

according to the UK Garden Trade News charts

Orchid Focus Repotting Mix is composed of carefully selected graded bark to ensure a superb balance of air and moisture that is ideal for most popular orchid species and hybrids including *Phalaenopsis*, Cambria-type (*Oncidium*), *Cymbidium*, *Dendrobium*, *Paphiopedilum*, *Vanda* and *Cattleya*.

Available in 3 litres and 8 litres

Repotting Mixes

Growth Technology offers a comprehensive range of specialist nutrients and mixes focused on specific plant requirements to ensure vitality and optimum growth.

Perfect to increase sales and complement the range of nutrients.

Quality
you can
see!

Cactus Focus Repotting Mix

Bonsai Focus Repotting Mix is designed for best results with the widest range of bonsai trees. It is open textured to promote healthy root growth and contains no added nutrients to ensure control of growth. It contains peat, fine grit, sand and fine bark.

Available in 2 litres

Focus nutrients – see pages 10–16 for the complete range

Houseplant Focus Repotting Mix is designed for best results with the widest range of houseplants. It is free draining to promote healthy root growth. It contains peat, sand and wetting agents, as well as a carefully balanced range of nutrients to promote healthy growth for up to 9 weeks.

Available in 2 litres
and 8 litres

Carnivorous Plant Repotting Mix is designed for best results with the widest range of carnivorous plants. It contains peat and sand and it is formulated to promote healthy growth. It contains no added nutrients to ensure control of growth.

Available in 2 litres

Cactus Focus Repotting Mix is designed for best results with the widest range of cacti and succulents. It is free draining to promote healthy root growth. It contains peat, sand, grit, sterilised soil, maglime, wetting agent as well as a carefully balanced range of nutrients to support growth for up to 2 months.

Focus nutrients are the perfect partners for our repotting mixes – see pages 10–16 for more information

Available in 2 litres and 8 litres

African Violet Repotting Mix

Designed for best results with African Violets (Saintpaulias), Streptocarpus and all Gesneriads. It is light, porous and free draining to promote healthy root growth.

Available in 2 litres

Available in 2 litres and 8 litres

Citrus Focus Repotting Mix is designed for best results with the widest range of citrus trees. It is free draining to promote healthy root growth. It contains peat, perlite, wetting agent, maglime, as well as a carefully balanced range of nutrients to promote healthy growth for up to 2 months.

Clear Orchid Pots

Robust, transparent pots for orchids

Available in 9 cm, 12 cm, 13 cm, 15 cm, 17 cm, 19 cm and 21 cm

Specifically designed for orchids

Clear plastic pots are ideal for epiphytic orchids such as *Phalaenopsis* (the most popular species) which benefit from light getting to their root systems. These pots promote healthy roots by allowing filtered light into the root ball, simulating natural growing conditions.

See the difference...

Growth Technology Clear Orchid Pot:
Many large holes = good drainage

Other brand:
Few, small holes = poor drainage, too wet for orchids

How it works...

For pot stand - see page 32

Cymbidium Pots

UNIQUE
PRODUCT

Cymbidium orchids are best repotted in tall pots, large enough to accommodate two year's growth. These pots have excellent drainage which makes them ideal for *Cymbidiums*.

Available in
4 litres and 7 litres

Clear Pot Saucers

Saucers to match the Clear Pots, available in 9–15 cm and 17–19 cm sizes.

When filled with gravel or horticultural grit and filled almost to the top with water, clear saucers can be used as humidity trays.

Terrarium Glassware

A stylish selection of high-quality glass for open or closed terrariums to take advantage of this growing trend.

NEW

Terrarium 'Pear' – Medium

Height 37 cm Diameter 21.5 cm

A modern, pear-shaped handmade glass, suitable for a wide range of plants. Easy to plant out with a good depth of plants.

Terrarium 'Apple' – Medium

Height 27 cm Diameter 21.5 cm

Modern and stylish, available in two sizes. Suitable for a wide range of plants.

Terrarium 'Apple' – Large (not illustrated)

Height 38 cm Diameter 29 cm

Terrarium 'Bovey' – Large

Height 44 cm Diameter 20 cm

Impressive size and versatile. Easy to plant it out with a good depth for plants. Made from recycled glass.

Terrarium 'Bose'

Height 25 cm Diameter 18.5 cm

The classic glass for closed terrariums. Suitable for open terrariums too if the cork is removed. Made from recycled glass.

Terrarium Essentials

Decorative Grit – Tuscan

An ideal top dressing for pots, terrariums and cacti. Washed and graded between 3–8 mm.

Terrarium Activated Carbon (charcoal)

Lightweight and highly absorbent as it has oxygen added to it to increase its porosity and surface area. It is made from organic material and it can absorb 100 to 200 times its weight. It draws out organic chemicals and bacteria for a clean, odour-free terrarium.

Books

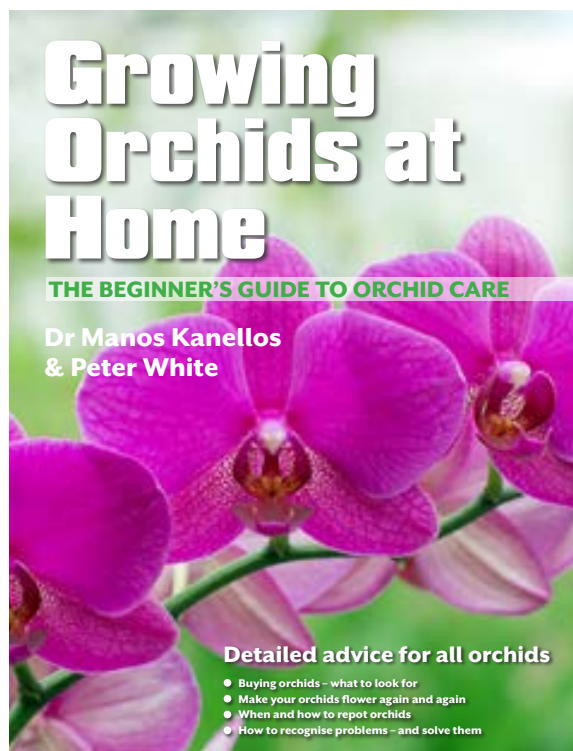

Growing Orchids at Home

by **Dr Manos Kanellos & Peter White**

72 pages

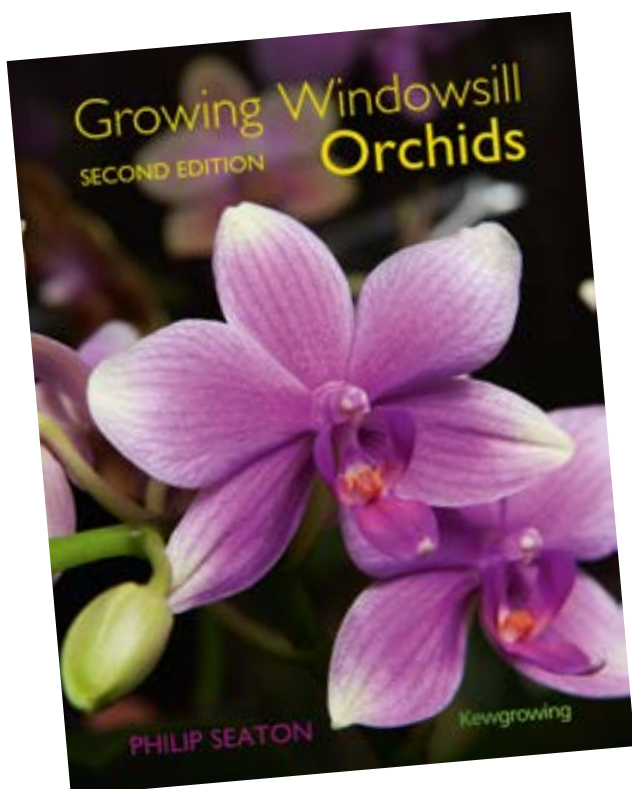

An authoritative and detailed guide to caring for orchids in the home – the result of experience, continuous experimentation and extensive research by expert authors. All common types of orchids are covered.

This book communicates all the necessary information in a way which is easy to understand, with over 100 unique, purpose-taken pictures. It includes a section with answers to the most common questions, and a photographic guide to signs, diagnosis and treatment for bringing ailing orchids back to health. The only book you need when growing orchids in the home environment.

With over 150 colour photographs to demonstrate key information.

Free display holder with orders of 20 books

Growing Windowsill Orchids

by **Philip Seaton/KEW Publishing**

60 pages

Everything you need to know to succeed with orchids in your home, including what to look for when buying orchids, caring for your orchid and how to get it to flower again year after year. The author is an internationally renowned expert with more than 35 years experience of growing orchids.

80 colour photographs and over 30 line drawings clearly explain the key points.

Clips

Our clips are ideal to support orchid flower stems or to decorate any plant.

A wide range of high quality, attractive clips, available in many vibrant colours.

Dragonflies

Pack of 6 – assorted or clear

Butterflies

Pack of 6 – assorted or clear

Versatile Clips

Pack of 7

Large Support Clips

Pack of 4

Daisy Clips

Pack of 12

Orchid pruning scissors

Great for all round gardening use. Ideal for orchid root pruning and removing old flower stems, as well as the pruning of bonsai trees.

Orchid Flower Support

50 cm

Attractive leaf design.

Available in black, clear, pink and green

Coir Poles

**NEW
SIZE**

Traditional support for houseplants

High quality poles with coir wrapped around the plastic tube.

Available in 0.7 m, 1.2 m and 1.6 m

SB Plant Invigorator

A unique 3-in-1
Pesticide, Mildewcide
and Foliar Nutrient

- Controls plant pests including Whitefly, Aphid, Spider Mite and Mealybug
- Biodegradable and non toxic
- No harvest interval
- Can control mildew
- Physical mode of action so pests will not become resistant
- Excellent shelf life and efficacy
- Suitable for use throughout the year

Available in 500 ml RTU;
250 ml and 500 ml concentrate

SMC Orchid Blend

NEW

Effective control of mites

SMC Orchid Blend works mechanically by suffocating them with an ultra-thin film of special oil.

Completely safe for use in the home.

Available in 100 ml concentrate

CLONEX®

Rooting Hormone Gel

A high performance rooting compound

CLONEX® is a tenacious gel which will remain in contact around the stem, sealing the cut tissue to prevent infection. The gel supplies the hormones needed to promote root cell development and protects the delicate new root tissue.

Available in 50 ml

CLONEX® Mist

Natural root stimulator

Clonex® Mist is easy to use and generates quicker, more vigorous and healthier cuttings

Clonex Mist is designed to work in conjunction with Clonex Gel to produce vigorous healthy cuttings with strong roots. It is simply used to mist cuttings from time to time during the rooting process.

Clonex Mist contains no hormones and is completely safe and non-toxic. Supplied in a ready-to-use trigger spray bottle.

Available in 100 ml, 300 ml and 750 ml

Root Riot®

Propagation cubes

- Moulded from organic materials
- A great spongy texture
- Retains the perfect air/water ratio for healthy, rapid root growth
- Suitable for both cuttings and seeds

Available in 24 cube tray and refill bags of 50 cubes and 100 cubes

Display Units

Combi Stand

Our stand brings together more products in a space efficient way.

Products for stand approximately as shown.

Minimum order value £900.

Dimensions: w 75 cm x h 210 cm x d 70 cm

Caring for indoor bonsai

Feeding
Water your bonsai before you feed to avoid root burn. It is advisable to use a proprietary bonsai fertiliser such as **Bonsai Focus** which is highly recommended. This will help the tree to get the required nutrients for healthy growth. Feed once every one to two weeks throughout the year and avoid feeding in November to January. For bonsai azaleas or other acid-loving plants it

Problems

Yellow or fallen
If your bonsai starts turning yellow, do it of reasons such as very cold. If any of Depending on the occurrence. The dormancy so be replaced by a n
Fungal disease
