CENTERRE HEALTHCARE APPOINTS LYCAN VICE PRESIDENT OF UNIT MANAGEMENT

NASHVILLE, Tenn. (March 21, 2011) - Centerre Healthcare Corporation, a national provider of inpatient acute rehabilitation services, announces the recent appointment of Laura J. Lycan to the position of Vice President of Managed Units.

In this capacity, Lycan will be responsible for the successful development and operation of the Centerre Healthcare's Managed Rehabilitation Unit Division which assists hospitals with improving their clinical, operating and financial performance of existing acute inpatient rehabilitation units. The Managed Rehabilitation Unit Division provides a full range of management services including program development, benchmarking, clinical quality management, strategic planning and market development.

"We are honored to have Laura, with her extensive industry experience and contacts, join our team," said Pat Foster, CEO of Centerre Healthcare "We have a great opportunity to build strategic relationships and partnerships as we forge ahead with current and future development."

Ms. Lycan comes to Centerre Healthcare from Dallas, Texas. She has a significant background in operations including President of Baylor Medical Center at Grapevine, President of Baylor Institute for Rehabilitation, and Chief Executive Officer (CEO) for HealthSouth Plano Rehabilitation Hospital. Most recently Ms. Lycan served as Senior Healthcare Consultant and Project Leader for HDR Architecture, Inc. Some of her projects included The New Parkland Replacement Hospital and the California Prison Receivership which included seven (7) healthcare facilities.

Ms. Lycan has a BS in Education from the University of Missouri-Columbia, Missouri, and a Masters of Healthcare Administration from St. Louis University, Missouri. She is a current member of the American College of Healthcare Executives, and The Senior Care Task Force of The Health Industry Council, DFW.

###

About Centerre Healthcare Corporation (<http://www.centerrehc.com>): Centerre Healthcare, headquartered in Nashville, Tennessee, is a national provider of inpatient acute rehabilitation services, dedicated solely to partnering with medical centers to complement their healthcare continuum through joint development and operation of acute rehabilitation hospitals and units. In 2010, Inc. Magazine placed Centerre Healthcare Corporation in the top 20% of its annual ranking of the 5,000 fastest-growing private companies in America. In 2009, two Centerre Healthcare facilities ranked in the top 10 percent of 805 inpatient rehabilitation facilities (IRFs) that qualified to be ranked in the IRF database of Uniform Data System for Medical Rehabilitation (UDSMR).
