

ENTity XL LED NasoView Nasopharyngoscope

Material compatible with STERIS Revital-Ox™ Resert® XL HLD

ENTity XL Nasopharyngoscope has passed STERIS's rigorous material compatibility testing

The ENTity XL LED NasoView Nasopharyngoscope frees you to perform nasal endoscopy and laryngoscopy virtually anywhere. Our patented, integrated LED light source eliminates cumbersome external light sources while providing exceptional visibility.

The ENTity XL has been tested in Optim's testing lab for material compatibility with the STERIS Revital-Ox™ Resert® XL HLD Disinfectant system for 1,000 cycles. This is in addition to passing the STERIS Device Testing Program's rigorous material compatibility evaluation for the STERIS Resert Disinfectant system.

Specifications

Flexible Length	30cm (11.8")
Overall Length	53cm (20.9")
Shaft Diameter	3.6mm
Weight	11.6 oz
Articulation Range	135 degrees up / down
Depth of Field	5mm to 50mm
Field of View	70 degrees
Battery	Lithium Ion

Compact, portable, all-in-one design

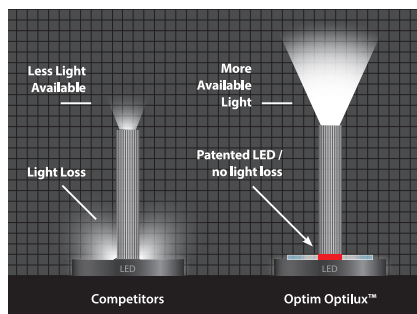

- No external light source or lamp replacement
- Hybrid aluminum handle
- Fully sealed and completely immersible
- Bring the scope to the patient
- Use in the office / bedside / hospital

Better economics

- See more patients per day, increase revenue
- Reduced capital expenses and ongoing maintenance
