Novice/Cruise Class

Everyone starts here.

First time Tour Vehicle: Run at the front of the field behind the Primary Tour Leader and have access to a Driver Trainer.

Intermediate Class

As Novice/Cruise but with some quick spurts on less risky sections.

Can move up here after at least 1 Novice/Cruise session. Middle of the field usually with a 2nd Tour Leader depending on group numbers.

Advanced Class

130km/h limit and a quick pace.

For Drivers that have done rally or racing before or at least 2 or 3 ATRC Tour events.

Ultimate Class

130km/h limit for Crews with 30 second Gap.

All vehicles must have a Navigator and safety notes are highly recommended. The intention is that all vehicles have the minimum of a half cage, upgraded brakes and suspension. Vehicles that do not have a cage will need to seek the approval of the Clerk of Course and it is at his sole discretion. Vehicle and crew entering the Ultimate Class will have done the min of a full season of Advanced Class or would have competed as a min as an Entrant in the ATRC prior to being approved.

Auto Test:

Not available to Novice/Cruise Class

There will be 3 or 4 Auto Test made available to Entrants in the Intermediate, Advanced and Ultimate classes during the event. The Auto Test will not be used on every Stage listed on the Event Schedule. The events that will be integrated into safe areas of the stages will be a go to whoa, slalom and motorkhana. These will be placed in suitable places where they can be set up and left on the stage without effecting the Competition Legs of The Event.

Additional Information:

The organisers recommend that vehicles carry an approved First Aid Kit and 1kg fire extinguisher. Crews are to be assembled at the start location, where they will be directed by the Tour Leaders, Driver Trainers and Touring Sweep Vehicle. An IRT unit may be used to sweep behind the field.

- a. Participants are to follow the Tour Leader (Official Vehicle) through the stage in convoy and normal safe driving practices are to be adopted at all times.
- b. Participants are not permitted to 'drop back' and then accelerate at high speed
- c. Overtaking is not permitted, unless a vehicle in front has mechanical problems and has slowed down perceptively and a clear signal to overtake is given by the overtaken driver.
- d. The event is a spirited drive and participants must realize that it is not a competition. Anyone caught racing or timing will be removed from the Tour immediately.
- e. No Entrant may take photos of the Speedo or any crashed vehicle and post on any form of multimedia at any time during or after the event. This may put the Tour Event at risk of Cancellation for all participants.

SOS Radio Point Observers, who will be Judges of Fact, will be located on each and every stage to make judgements based on the following which are prohibited:

- Sliding or drifting
- Locked wheels while braking
- Driving off the edges of the sealed surface
- Bodywork damage
- Overdriving

All vehicles in the Touring event shall be fitted with Rallysafe Safety Awareness System for safety of the crew and tracking of the vehicle.
