To Whom It May Concern:

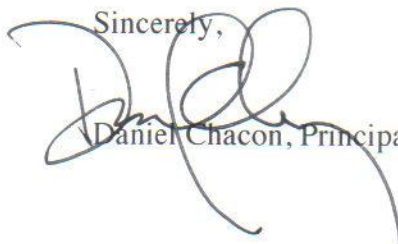

It's with pleasure that I write this letter of reference on behalf of Dennis Harting. I've known Dennis for two years, while he has served as a Physical Education teacher and Head Girls Basketball coach at Sanger High School. During this time I have observed Dennis to be hard working, motivated and constantly improving as a teacher.

Over the past two years, I observed Dennis evolve into an effective teacher. Dennis provides students with structure and daily learning objectives. His students respond well to his instructional style and he provides adequate support for all students. Above all, he strives for mastery of lesson in all his students.

As the Girls Head Basketball coach, Dennis worked countless hours developing a competitive program. He established a summer basketball program and was busy fundraising throughout the year. Although the win column did not reflect all of Dennis' hard work, I can attest that he worked tirelessly and always had the best interest of the girls in mind.

I wish Dennis the best in his future endeavors and sincerely appreciated his service to Sanger High. Should you have any further questions, please feel free to contact me.

Sincerely,

Daniel Chacon, Principal

*"Always With Pride"*
