The Marriott West Hotel & Convention Center once again played host to one of the Badger State's largest antiques events – The 19th Annual Madison Antique Showcase & Sale, held on March 12th & 13th. Out & About

We hope everyone had a wonderful Memorial Day Weekend. Mine was spent at home working on my deck every day from 7:30 in the morning until 7:30 at night. Still not done, but getting closer, it was just me and Todd doing the work, as all the kids were working this weekend.

Seems like winter took forever and summer is going to fast. It is already the start of June. Some of the corn by us is already about 6" high or more. A few farmers have already made their first cutting of hay.

The kids last day of school is Friday. Summer for the girls will be busy with work. Brandon will be busy with a little bit of everything from everywhere. We still have one more college road trip to plan. The girls would like to finalize by start of school. It will be one busy summer for all of us.

Father's Day is three weeks from Sunday. Start your hunt for that special antique item now at a show, auction or shop. There are a lot to choose from to attend in the next couple of weeks.

Marriott West Hotel & Convention Center Hosts Long-Running Madison Antique Showcase & Sale

Article & photos by Brian Maloney

You couldn't pick a better site for the Madison Antique Showcase & Sale – the Marriott West Hotel & Convention Center just west of Madison, Wisconsin. Yes, this is the very same Madison Antique Showcase & Sale that had been hosted by the Dane County Expo Center for the past few years. But parking concerns and more caused organizer Larry Kaczmarek to move the event a few miles west of downtown to its posh new digs at the Marriott West Hotel & Conference Center. Gone are the concrete floors and roof trusses - replaced with carpeting and chandeliers. One thing did stay the same though: the quality of the fifty-plus exhibitors' goods.

And among those dealers were some of the region's best antique furniture purveyors. They included North Dakota's Amity Marketing, who came with a wide range of period furniture from 19th century American country to 20th century industrial. Second Chance Antiques turned heads with pieces including an ornate quarter-sawn oak dental cabinet. And the furniture display of Beneath the Dust was just as nice,

with painted primitives happily mixed in with the restored brown furniture they're known for.

Vintage toys more your thing? Pearmont Antiques is always a good place to start looking - their display filled with classic toys from cast iron to litho-tin wind-ups. Also there: a choice 1948 golf-themed calendar signed by legend Bobby Jones himself. Other specialty dealers sprinkled around the show meant there really was "something for everyone" at the two-day event. Blackwolf Antiques and Laura's Collectibles both came with huge vintage jewelry inventories. And Grape & Cable's huge array of art glass was given a run for its money by Texas dealer Vine of Time.

Larry & Cheryl Kaczmarek did their usual terrific great job promoting the event, continuing last year's very-popular \$1 appraisal clinic on both days of the show. For more information about the event, just give them a call at 920-993-9817, or visit www.madisonantiqueshow.com. And as always, keep an eye out for listings of next year's 20th Annual Madison Antique Showcase & Sale in the Auction Action Antique News!

Madison Antique Show promoter Larry Kaczmarek was kept busy on both days of the event, helping man the very popular \$1 antiques appraisal clinic.

At Haven Hill Antiques, this three-piece walnut parlor suite was \$525, the oil-on-canvas child's portrait above \$750. 262-313-7234

I found this 20" vertical Chandler pastel landscape at Laura's Collectibles, price tag \$125. 414-466-4000

Two vintage plaster finds from Laura's Collectibles: the 20", circa 1928 Kraftrok Rich-Craft Studios "Dancing Nymphs" plaster plaque priced at \$160, the fashionable lady string-holder at \$25. 414-466-4000

Two interesting furniture finds from Second Chance Antiques: the adorable child's Hoosier-style cabinet (42" tall) priced at \$550, the 48" maple workbench with full storage below at \$1,425. 920-470-2319

Country finds at J & L Antiques ranged from a rustic willow fernery to this zinc-lined primitive dry sink priced at \$335. 608-575-0162

Shoppers could choose from a huge assortment of period pocket watches and wristwatches at It's About Time – my pick this Swiss "doctor's chronograph" pocket watch in a gold filled case, asking price \$200. 608-831-5580

This Golf-themed 1948 Esquire calendar shown by Pearmont Antiques came with a big bonus: a hand-signed inscription by golf legend Bobby Jones! 920-210-4101

At Second Chance Antiques sat this most-impressive 42" x 44" quarter-sawn oak dental cabinet priced at \$2,195 – above it rests a 22-drawer mahogany cabinet priced at \$550. 920-470-2319

White paint and back-lighting certainly brightened up this ornate antique hall tree I found at Sarah Engeseth Antiques, asking price \$325. 608-846-3137

Period furniture is always the focus at Haven Hill Antiques, but you'll find great accessories there too, like this pale rose slag glass table lamp (\$495) and Royal Holland pewter tea & coffee service priced at \$125. 262-313-7234

Another interesting find from Beneath the Dust: this 12" carved stone Civil War Memorial marker depicting a lion and lamb lying beside a cannon - \$375. 920-229-8298

At Pearmont Antiques sat this ornate 1920s Le Flore Anna Held cast iron cigar cutter, asking price \$425. 920-210-4101

Beneath the Dust brought their usual excellent inventory of restored fine furniture, plus primitives including this rustic bench in faded pink & blue paint (\$72), blue seven-drawer apothecary (\$595), and folky 25-drawer cabinet priced at \$350. 920-229-8298

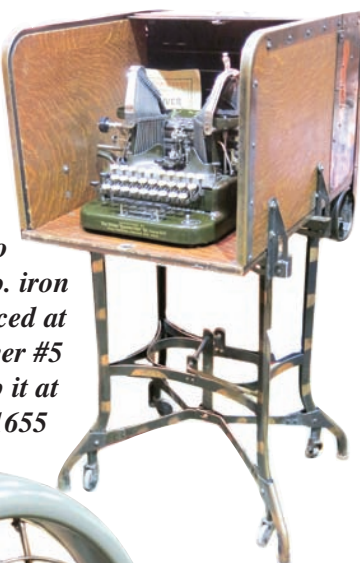

My art glass pick from Blackwolf Antiques: this charming 11" Bristol glass vase with enameled flowers all-round - \$285. 920-688-5090

Among Vine of Time Antiques' inventory of Vaseline Glass: this Davidson William & Mary 8" ruffled opalescent dish, asking price \$145. 817-269-2350

Funky vintage furnishings from North Dakota's Amity Marketing Antiques: the Toledo Metal Furniture Co. iron & oak stand priced at \$1,275, the Oliver #5 Typewriter atop it at \$215. 701-899-1655

Antiques at Gordon's came with exquisite period art glass & pottery from the likes of Weller, Roseville, and more. 262-377-4313

Two interesting artifacts from Time's Treasures: the 24" folk art sheet iron weather-vane arrow with a Native American theme priced at \$425, the wonderfully-detailed 16" diorama of the schooner Maria at \$285. 608-742-7639

Another cool vintage piece from Amity Marketing Antiques: this streamlined Vornado table fan in nice condition - \$225. 701-899-1655

A whole family of early walking bear windup toys waddled across the booth of Jesse Behr Antiques - priced at around \$40 each. 309-661-2148

Grape & Cable's array of period art glass always impresses the shoppers - among the inventory these enameled cranberry glass pickle castors priced at \$660 and \$750. 630-399-6312

This Scandinavian-influenced 48" hanging shelf from Amity Marketing sported its original sponge paint treatment - and a \$235 price tag. 701-899-1655

Two adorable vintage Marx Toys lion windups from Victorian House Antiques: the 1950s Roaring Lion priced at \$125, the little Paw Licking Lion at \$95. 608-879-2567

Hot Deals on Farm Toys at Loderbauer Auctioneer & Estates

Article & photos by Brian Maloney

This buyer and his Grandpa enjoyed a great day of toy buying.

We received a call from Joe nearly a year ago asking questions on how the auction could work as he prepared himself for the tough decision to sell. Late last fall, a second call came from Joe and he indicated that he wanted to have an auction in the spring. We worked with both Joe and Annie on getting pictures taken of the toys to be sold in addition to compiling a long list of those items for the next several months. Due to the volume of his collection, it was decided that a second, and possibly a third auction would be necessary. So the day had now come and both Joe and Annie decided to attend the sale and were anxious to see how things would fare. The bidders started arriving that morning about an hour before viewing time was posted but all went well.

Bidders of all ages attended and one of the best buyers was an 11 year old boy attending with his Grandpa who used his own money to buy some toys. We utilized our "professional" marketing/staging person who did an excellent job laying out the collection to be sold that day. The auction started promptly at noon with most of the bidding crowd having enjoyed a fantastic brunch hosted by the Darboy Club that morning. The sale went great and Joe and Annie were very pleased with the outcome. Most of the toys were never out of the original boxes and ranged from the 1940's to current. There was a wide variety of all brand names of farm tractors and

machinery as well as many collectible farm related items. A few special items included in this sale were a 1940's Ertl H that was all original and sold for \$300. There was also many 1/8 scale toys which continue to be a popular item with the collectors. A Farmall 560 sold for \$195 while an "M" brought \$190. A John Deere Model L spreader brought \$325 and a disk \$225. Most of the toys were 1/16 scale and products of Ertl, Spec Cast and Scale Models. Since Annie once owned a PT Cruiser, there were several models of that particular car, too. In total, there were 580 lots that were sold that day as the sale concluded at 4:40pm and everyone took home their new treasures. The second auction for the Thomas collection is scheduled for Sunday, October 2, 2016 at noon at the Darboy Club. Be sure to mark your calendar for another great sale day with a larger variety of toys. Robert J. A Short History of Celluloid

Article & photos by David Meicher (Madison Button Club)

How are these three items related to the history of Celluloid?

- 1) An antique billiard ball
- 2) A Celluloid button
- 3) A ping-pong ball

A brief history lesson about Celluloid buttons will reveal the answers. Celluloid was invented in 1869 by the American inventor, John Wesley Hyatt. It was developed from the compound Cellulose, which is a combination of wood fiber and cotton fiber.

In 1862 the British inventor, Alexander Parkes, was given credit for inventing Cellulose — the first true plastic. He named it Parkesine. In those early years there was much chemical experimentation with Parkesine. They were looking for ways to stabilize and manipulate it so as to manufacture products for the ever-growing world market. Although treating it with nitric acid produced many uses for it, this method went by the wayside because it was still too unstable and very costly to manufacture.

Around the same time that all of this chemical experimentation was going on, an American company called Phelan and Collender in 1862 offered a prize of \$10,000 to anyone that could invent a satisfactory substitute for Ivory. They used Ivory, which came primarily from elephant tusks, for the manufacturing of billiard balls. The game of Billiards was gaining in popularity at that time and elephant tusks were becoming increasingly scarce. The company that offered the \$10,000 prize is still in business today and is known as the Brunswick Corporation.

The American inventor John Wesley Hyatt took up the challenge in 1862.

Hyatt, who had over 100 patents to his name, was determined to win the \$10,000 prize. One day in the mid-1860's while working in his lab, he accidentally spilled a bottle of Colloidine on the Cellulose material that he was experimenting with. He found that it congealed his Cellulose into a tough, flexible mass. He decided to make a demo set of billiard balls with this new material. This new material worked to some extent, but it was still too unstable. It frequently caused small explosions when the billiard balls collided and the billiard balls would sometimes shatter because they had become too brittle.

So back to the laboratory he went. In 1868 he found a solution to these problems. He found that when Camphor, which is a by-product of the Laurel tree, was added to the raw Cellulose it caused the problems to disappear. He filed for a patent in 1869, and he named his new product, Celluloid. This product was the first thermoplastic: a substance molded under heat and pressure that would retain its shape when the heat and pressure were removed. He also won the \$10,000 prize.

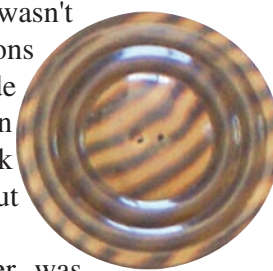

Buttons were not on the list of the many products that used Celluloid in their manufacturing processes in those early years. Combs, pins, umbrella handles, eyeglass frames, dentures, piano keys, photographic film, and billiard balls all preceded buttons. The use of Celluloid in button manufacturing did not start to appear until one or two decades later.

The earliest buttons that used Celluloid used it as a clear sheet to protect lithographs and for background and trim. Today, those earliest buttons that used Celluloid are called Victorian Celluloid buttons.

The first patent for the Celluloid tighttop button wasn't made until the year 1917. The tight-top Celluloid buttons were the most abundant type of Celluloid buttons made and thus, most Celluloid buttons are classified as Modern vs. Antique buttons. Celluloid buttons reached their peak in the late 1930's, but by the 1940's were being phased out and replaced by other plastic type material buttons.

Celluloid buttons reached their peak in the late 1930's, but by the 1940's were being phased out and replaced by other plastic type material buttons.

The main reason that Celluloid lost its luster was because of its high flammability and its degradation problems. The common degradation problem occurred because the Camphor worked its way out of the button. This degradation when combined with water or water vapor would form a nitric acid gas that is very corrosive to metal, fabric, paper, and other materials. Extreme heat and UV ray exposure also contributed to the problem. Those things caused the button, or buttons to become brittle and they would develop deep crazing. The buttons affected would completely crumble away in time.

What can you do if you see this type of damage to your buttons? The answer is nothing because there is no way to stop this degradation once it has begun. The buttons affected should be discarded and the remaining buttons should be given a light cleaning.

How can you prevent this from happening to your buttons? Celluloid buttons should be stored separately from your other buttons, particularly metals. They should be kept out of direct UV exposure and they should have proper ventilation and temperature controls. With the proper care most all of your Celluloid buttons will be around for many years to come.

After reading this short history on Celluloid, button collectors should have a deep appreciation for the antique billiard balls of the past because without them, Celluloid buttons would never have been invented, and thus, we would not have any to collect. Finally, do you know what the only Celluloid product now made in any quantity is? The answer is the ping-pong ball!
