## Beautiful Door County the Site of 43rd Annual Antique & Vintage Market

Article & photos by Michelle Goltz

For those of you who have had the pleasure to travel to Door County, Wisconsin you know you don't need an excuse to go there! It is one of my most favorite places to visit and stay in Wisconsin. But for those of you who haven't had the pleasure, you definitely need to make it a priority in your future travel plans. Door County Peninsula is a place of beauty and if you add an "Antique Show" to it, then it is "Vintage Beauty." There is so much to see, do and enjoy that before you even leave you are already planning the next trip back!

## Out & About

The fields by us are all clear now, which is the start to the signs of winter. I had to start wearing a coat too. The snowbirds are leaving for their warmer climate homes. Unusual for me, I have seen a couple of foxes along the side of the road, going after the road kill. Make sure you have your Halloween candy ready and watch for those Trick or Treaters next week.

Be sure to watch those shop and mall ads for their Fall Sales and soon to be their Holiday Sales along with their Customer Appreciation Days. Hard to believe that Thanksgiving is just four weeks away. Time to start getting that grocery list ready. This will be new for Todd and I, with the girls coming home for Thanksgiving. So, I will have to make all of their favorites.

### When Out and About this weekend, be sure to check out:

# 34 Exceptional Vendors Highlight the Door County Antique & Vintage Market in July

Article & Photos by Michelle Goltz

This event was taken over by a great couple, Larry & Cheryl Kaczmarek that have been dealers for 40 years, Village Blacksmith Antiques. They are looking to continue the growth of this great show which is held at Gibraltar School in Fish Creek, Door County Peninsula the last week of July, for more information email: cheryl-vand@sbcglobal.net. The vendors at this show came from all over (Arizona, Illinois, Indiana, etc.) This event is also paired with the Lion's Club and they had some great raffle items that all who attended could try their luck at winning! They also had a sweet yellow lab that is part of the "N.E. Wisconsin Leader Dog - Puppy Project" on premise.

**Tenth Federal Duck Stamp -**  
The original is a 5" (shy) x 7" drypoint etching on copper of Wood Ducks in flight. It was chosen in an honorary limited competition. The stamp was printed in Indian red and sold for \$1.00. The first day of sale was July 1, 1943 Wood Ducks by Walter E. Bohl, 1943 - \$475. Indian Creek Antiques, Mike Chapman (262) 363-7338

Door County Original Watercolors. Postcards-Watercolors, Lauder, Madison, WI [uss-stamps@charter.net](mailto:uss-stamps@charter.net)

I so enjoyed meeting the vendors and travelers that were at this show, it was a busy, informative day filled unique pieces, vintage as well as stunning refurbished vintage art. The vendors are so knowledgeable about their wonderful collections and are always friendly and willing to share any history stories they have! So make sure you watch for the show date for Fish Creek in July 2018, or you can attend a show that Larry & Cheryl have on April 14 & 15th, 2018 (all proceeds support Hearthstone Historic House Museum, they will have tours as well). Start planning now there is so much to do and see in Door County why not make a weekend or even a week full of fun and beauty!

## Stanton's Auctioneers - Accepting Collections & Consignments

We are presently accepting collections of Antique Phonographs, Music Boxes, Jukeboxes, Orchestrons & Nickelodeons, Band Organs, Coin Operated Machines, Bird Boxes, Records, and all types of quality related items for our fall event that is scheduled for Thursday, Friday, and Saturday, November 16, 17, & 18, 2017.

We are scheduling trips across the United States and Canada and as we acquire the collections we will be meeting with the estates, families, owners & collectors. Our company handles the pickup, packing, cataloging and photography work for the items that will be included in our fall event.

Plan on contacting us to discuss our travel schedule and having your items included in our upcoming event. It is not too early to start making plans to be included, and to benefit from the National and International advertising done over the upcoming months in print, direct mailings, and through online technology. Our worldwide presence over the past 40 years in this field has made us a leader in the sale of these antique music machines.

## Hershberger Antique Auction- November 9, 10, 11, 2017

1475 Grant Ave. Hazleton IA 50641

Neil Hershberger of Long Lane Collectibles and his wife are hosting a three day antique auction this fall, Lord willing. Hershberger collects and sells antiques and recently purchased several entire collections including an outstanding private collection from Illinois. Hence the auction.

Loren Beachy, auctioneer, from Bright Star Realty and Auctions in Middlebury, Indiana says, "This is the largest antique auction my partner or I have ever done in our total almost three decades of experience. This auction really has something for everyone, from the farm primitive collector to the toy enthusiast to the engine collector, to the purveyor of rare finds."

The auction is to be held on November 9th beginning at 2 pm with toys and literature, then on Thursday and Friday the 10th and 11th starting at 9 am. The location is 1475 Grant Ave. Hazleton Iowa, 50641.

For more information, go to [www.brightstarauctions.com](http://www.brightstarauctions.com) or call the auctioneers at 574.825.0704

## Czech Collectors Association

The origins of CCA stretch back to 1995 when the Czechoslovakian Collector's Guild International (CCGI) was founded. The club was reorganized in 2001 and renamed the Czechoslovakian Collector's Association (CCA). This new name, however, only partially captures our interests as the organization also encompasses a wide range of Austrian, Bohemian, and Czechoslovakian Decorative Arts, what many members refer to as the ABCs of collecting.

Our mission is to foster the collection and appreciation of the art glass, ceramics, and other decorative arts of Austria, Bohemia, and Czechoslovakia from the years 1850 to 1940. CCA's mission is accomplished through: research, education, the publication of a Newsletter twice a year, the sponsorship of an annual Convention, and a comprehensive Web site which features articles and columns devoted to deepening our understanding of the history and production of these beautiful objects of art.

The current board members of CCA were elected at the 2010 and 2011 Annual Conventions and will serve two year, staggered terms. They are David Phelps (President, elected 2011), Rosie Bodien (Director of Publicity, elected 2011), David Fein (Director of Membership, elected 2010), Aggie Elwell (Treasurer, elected 2009), Bob Collier (Secretary, appointed 2011)

Our general membership includes both beginning and advanced collectors, researchers, educators, appraisers, and dealers. Most of the members have been collecting or dealing in the Czech decorative arts for many years. Collectively, the expertise of the members of CCA is unrivaled and our annual conventions also feature seminars from leading researchers in the field. Members can also tap into this expertise through one of our new on-line services, a regular column entitled "Ask the Experts." We also remain committed to an ongoing program of research and publication. In addition to the newsletter, CCA has published three volumes of the Journal of Czech Decorative Arts. Back issues are available through this Web site. Forthcoming articles will be appearing in an on-line version of the journal.

In addition to our commitment to providing club members with the latest research in the field of Austrian, Bohemian, and Czech Decorative Arts, we also realize that many members are active collectors and, as a club, we try to facilitate avenues for club members to purchase those elusive, beautiful, whimsical, and sought after pieces. The annual show, which is held in conjunction with our yearly convention, has always served as a major venue for collectors to view and purchase a wide range of glass, pottery, jewelry, and perfumes and it will continue to serve this function. In addition, we are now offering new services on this Web site, a "where the dealers are" page, a "for sale by members" page, a "Flea Market Finds" page, a "Collection of the Month" page.

The "where the dealers are" page will help members locate dealers who specialize in Austrian, Bohemian, and Czech decorative arts by providing information on the dealers, their locations and their upcoming shows. The "for sale by members" page will allow members of CCA to buy and sell pieces from their individual collections on the CCA website free of charge.

## National Imperial Glass Collectors' Society

The National Imperial Glass Collectors' Society was founded to interest people, to encourage learning, to enlighten and to understand one of our greatest heritages: the American glass industry and of the Imperial Glass Corporation, which was one of the largest and finest of all the great hand-made glass houses.

### IMPERIAL - THE COMPANY

For over eighty years, the people of the Imperial Glass Corporation in Bellaire, Ohio produced some of the most elegant hand-crafted glassware this country has known. Highly prized and collected today the popularity of Imperial glassware, then and now, is based on the creative artistry and craftsmanship of those people, the quality of the glass itself and the diversity in the styles of glassware lines offered.

### IMPERIAL-THE GLASSWARE

The following are among the many great Imperial blown, pressed, cut, etched and decorated glassware Lines:

Americana Bottles & Lamps / Vintage Milk Glass / Candlewick / Free Hand / Beaded Block / Peachblow / American Beauty Rose / Cathay / Reeded / Animal Figurines / Twist / Laced Edge / NuCut / End O' Day Slag Glass / Art Glass / Vintage Grape / Early American Hobnail / Mount Vernon / Bambu / Etiquette / Smithsonian Institution Collection / Pinch / Belmont / Scroll / Tradition / NuArt / Big Shots / Intaglio / Cape Cod / Metropolitan Museum of Art Collection / Carnival / Pillar Flute / Collectors Crystal / Stamm house Dewdrop Opalescent

## The National Museum of Cambridge Glass

On April 3, 2002, the National Cambridge Collectors, Inc. proudly opened a premier glass museum in downtown Cambridge, Ohio. It houses a superb collection of Cambridge glassware produced by The Cambridge Glass Company from 1902 to 1958.

The museum is located at 136 South Ninth Street, one block south of the main street of Cambridge, and is open April through October with hours of operation shown at the bottom of this page.

At right, you can view an interview conducted with Cindy Arent, one of our NCC Board Members who is the chairperson of the Museum Committee. Click on the arrow to start it. Here is a chance to hear first-hand about our world-class museum. If you'd like to see it a little larger, click on the picture while it is showing and you will be taken to the YouTube page where it is presented in a larger size.

The year 2002 marked the 100th anniversary of the making of the first piece of Cambridge Glass (the Big X pitcher, shown below and to the right). The Museum Grand Opening celebration took during NCC Convention week on June 27, 2002. We're easy to find - here's a map of the Cambridge area.

### Museum Contents

**Big X Pitcher** The museum features over 6,000 pieces of glassware made by the Cambridge Glass Company, with an interpretive area demonstrating how glass was made from gathering, shaping, etching, and engraving.

The Sample Room features the door and shelving from the original factory, and a dining room display features a table setting arranged on period furniture much as it would have appeared in the early 1900s.

Guests can do their own rubbings from original etching plates in the Education Center, and view a movie made in the 1940s by the Cambridge Glass Company.

Pieces of Cambridge Glass and jewelry made from Cambridge Glass are available for sale in the gift shop, along with books and other items throughout the museum.

# St. Louis Indian Western Art Show & Sale

Article & photos by Carolynn Boehmer (Gateway Indian Art Club)

The Gateway Indian Art Club of St. Louis was founded in the early 1980's by Todd Boehmer, Virgil Laux and Ben Thompson, three men who have been long time collectors and members of the Greater St Louis Archaeology Society. Although they started their collections with primarily stone tools, they had a great appreciation for the beauty of Indian Art which included pieces of bead work, quill work, pottery designs, basket designs, rugs and jewelry. They felt that an organization that focused on these pieces would benefit collectors and dealers in the St Louis area by connecting with others who recognized the artistry in each piece.

So join us for the St. Louis Indian Western Art Show & Sale on Saturday, November 4th from 10:00am to 5:00pm & Sunday, November 5th from 10:00am to 3:00pm. Admission is \$5 & early admission is \$25 at 9am Saturday. The show will take place at the Heart of St. Charles Banquet Center, 1410 South 5th Street (NE corner of I-70 & 5th St.), St. Charles, Missouri 63301.

The St. Louis area has a rich Indian heritage and there were many Indian Mounds within what is now the city of St. Louis when it was first being settled. We have a fabulous treasure nearby at Cahokia Mounds in Cahokia, IL and something we can be proud of. Additionally, the St Louis Art Museum houses the outstanding collection of St. Louisian, Donald Danforth, a long time collector of Indian artifacts.

The Gateway Indian Art Club of St. Louis has sponsored a major show every fall for more than 25 years which brings collectors and dealers to our area that shows the fine workmanship within the Indian Culture. Our show brings together collectors from all over the United States and is open to the public. It is our hope that when people see the beautiful items, it will form an interest in younger generations to perpetuate a strong interest in this unique culture and will carry into the future.

For more information contact The Gateway Indian Art Club at 314-229-6967 or by visiting our website at [www.gatewayindianartclub.com](http://www.gatewayindianartclub.com)

# A Short History of Celluloid

Article & photos by David Meicher (Madison Button Club)

How are these three items related to the history of Celluloid?

- 1) An antique billiard ball
- 2) A Celluloid button
- 3) A ping-pong ball

A brief history lesson about Celluloid buttons will reveal the answers. Celluloid was invented in 1869 by the American inventor, John Wesley Hyatt. It was developed from the compound Cellulose, which is a combination of wood fiber and cotton fiber.

In 1862 the British inventor, Alexander Parkes, was given credit for inventing Cellulose — the first true plastic. He named it Parkesine. In those early years there was much chemical experimentation with Parkesine. They were looking for ways to stabilize and manipulate it so as to manufacture products for the ever-growing world market. Although treating it with nitric acid produced many uses for it, this method went by the wayside because it was still too unstable and very costly to manufacture.

Around the same time that all of this chemical experimentation was going on, an American company called Phelan and Collender in 1862 offered a prize of \$10,000 to anyone that could invent a satisfactory substitute for Ivory. They used Ivory, which came primarily from elephant tusks, for the manufacturing of billiard balls. The game of Billiards was gaining in popularity at that time and elephant tusks were becoming increasingly scarce. The company that offered the \$10,000 prize is still in business today and is known as the Brunswick Corporation.

The American inventor John Wesley Hyatt took up the challenge in 1862.

Hyatt, who had over 100 patents to his name, was determined to win the \$10,000 prize. One day in the mid-1860's while working in his lab, he accidentally spilled a bottle of Colloidine on the Cellulose material that he was experimenting with. He found that it congealed his Cellulose into a tough, flexible mass. He decided to make a demo set of billiard balls with this new material. This new material worked to some extent, but it was still too unstable. It frequently caused small explosions when the billiard balls collided and the billiard balls would sometimes shatter because they had become too brittle.

So back to the laboratory he went. In 1868 he found a solution to these problems. He found that when Camphor, which is a by-product of the Laurel tree, was added to the raw Cellulose it caused the problems to disappear. He filed for a patent in 1869, and he named his new product, Celluloid. This product was the first thermoplastic: a substance molded under heat and pressure that would retain its shape when the heat and pressure were removed. He also won the \$10,000 prize.

Buttons were not on the list of the many products that used Celluloid in their manufacturing processes in those early years. Combs, pins, umbrella handles, eyeglass frames, dentures, piano keys, photographic film, and billiard balls all preceded buttons. The use of Celluloid in button manufacturing did not start to appear until one or two decades later.

The earliest buttons that used Celluloid used it as a clear sheet to protect lithographs and for background and trim. Today, those earliest buttons that used Celluloid are called Victorian Celluloid buttons.

The first patent for the Celluloid tighttop button wasn't made until the year 1917. The tight-top Celluloid buttons were the most abundant type of Celluloid buttons made and thus, most Celluloid buttons are classified as Modern vs. Antique buttons. Celluloid buttons reached their peak in the late 1930's, but by the 1940's were being phased out and replaced by other plastic type material buttons.

The first patent for the Celluloid tighttop button wasn't made until the year 1917. The tight-top Celluloid buttons were the most abundant type of Celluloid buttons made and thus, most Celluloid buttons are classified as Modern vs. Antique buttons. Celluloid buttons reached their peak in the late 1930's, but by the 1940's were being phased out and replaced by other plastic type material buttons.

The main reason that Celluloid lost its luster was because of its high flammability and its degradation problems. The common degradation problem occurred because the Camphor worked its way out of the button. This degradation when combined with water or water vapor would form a nitric acid gas that is very corrosive to metal, fabric, paper, and other materials. Extreme heat and UV ray exposure also contributed to the problem. Those things caused the button, or buttons to become brittle and they would develop deep crazing. The buttons affected would completely crumble away in time.

What can you do if you see this type of damage to your buttons? The answer is nothing because there is no way to stop this degradation once it has begun. The buttons affected should be discarded and the remaining buttons should be given a light cleaning.

How can you prevent this from happening to your buttons? Celluloid buttons should be stored separately from your other buttons, particularly metals. They should be kept out of direct UV exposure and they should have proper ventilation and temperature controls. With the proper care most all of your Celluloid buttons will be around for many years to come.

After reading this short history on Celluloid, button collectors should have a deep appreciation for the antique billiard balls of the past because without them, Celluloid buttons would never have been invented, and thus, we would not have any to collect. Finally, do you know what the only Celluloid product now made in any quantity is? The answer is the ping-pong ball!
