Minnesota Fairgrounds Hosts Annual Twin Cities Arts & Crafts 20th Century Design Show & Sale

Article & Photos by Mekenzy Hoisington

The drive down to Saint Paul for the Twin Cities Arts & Crafts Show was nice and relaxing. It was a beautiful sunny day outside, the roads were clear and traffic was light until I hit Minneapolis. I knew that since it was a Saturday that there would be tons of traffic but I wasn't expecting all the other events going on in the cities. The opening of Top Golf was that week so everyone was trying out the new game. Also in the fairgrounds itself there was a children's event going on and a dog show in the park. When I got there parking was kind of crazy but once I found a spot it was easy breeze from there. The show was wonderful. Everyone was helpful and friendly I

had no trouble finding pieces or holding conversations with the vendors. The traffic at the show was high too. People were walking around and talking. They were just as friendly as the vendors. I'm excited to go back to the show next year.

At the show you will find antique furniture, metal work, pottery, textiles, art work, as well as lighting. Makers include Stickley, Limbert, Roycroft, Rookwood, as well as the esteemed Minneapolis Handicraft Guild. Many of the country's leading Arts & Crafts dealers are represented at the show and they are always happy to help answer all of your questions.

Antiques Abbreviations

by Mike Paul

A while ago a reader asked about explaining some of the abbreviations they encounter in auction ads. This got me thinking about the abbreviations auctioneers use and why we use them. After a phone call to Gloria I offered to put together a listing.

By definition, an abbreviation is a shortened form of a word or phrase used for brevity. Within context and reason it identifies certain aspects of a piece to the buyer without needlessly going into detail. A lamp buyer will know what a "bracket lamp" is. It's unnecessary to say, "Victorian cast iron wall bracket with mercury glass reflector, chimney & drop in finger font". Most auctioneers use abbreviations in order to keep the size of the ad affordable. However it can be too much of a good thing and some of the more arcane descriptions can confuse or mislead the reader. To a person who collects a particular category most abbreviations in that category are readily recognized. To anybody else they are probably gibberish. Even a novice farm toy buyer won't need a three day weekend to decipher IH, McD & JD. WWI & WWII are obvious but would most folks recognize CW (Civil War) out of context? Coins, firearms, Hummels (152/A TMK3 UB K255 HB, anyone?) and other categories all have their own abbreviations that often are exclusive to that field. But if you are a glassware buyer does it really matter if you can't translate a 28g, o/u, d-bbl, ss w/syn stock and vr?

Some descriptions, while not technically correct, get the point across. For example "Jewel T", (which is short for Jewel Tea, a grocery chain) takes up less space than "Autumn Leaf", (a pattern name for china offered as a premium by Jewel Tea). This may seem like a trivial difference but similar descriptions over several publications begin to add up.

A listing that encompassed all of the collecting fields would be more of a project than I can take on but the following abbreviations should get you through most ads for antique auctions. If you have others you'd like to add to the list or that you've wondered about, please email them to me at mike@paulauction.com.

A&C - Arts & Crafts. Refers to the style of furniture usually associated with early 1900s Stickley. Often but erroneously referred to as Mission or Prairie.

ABC - American Brilliant Cut. Refers to the "Brilliant" period of late 19th/early 20th century American cut glass

B&H - Bradley & Hubbard. A manufacturer of quality lighting and decorative accessories.

B&W - Blue & White. The glaze colors used on utilitarian stoneware that was often found in the kitchen.

CI - Cast Iron.

COP - Century Of Progress. Typically refers to souvenirs hauled back from the Chicago World's Fair of 1933/34. Even in the middle of the Great Depression, a lot of Wisconsinites made the trip to see the COP.

CRS - Somebody explained this to me once, but I can't seem to remember what they said.

Dmg - Damage.

gl - Gallon. Typically used when advertising stoneware capacity

For Rest - For Restoration. Don't go to the auction expecting a cream puff.

GBCF - Glass Ball Claw Foot. Describes the foot usually found on late Victorian parlor and lamp tables.

GWTW - Gone With The Wind. A style of lamp with a matching font and top globe. Correctly referred to as a parlor lamp but popularly known as a Gone With The Wind, after the movie of the same name.

LRRH- Little Red Riding Hood. Typically refers to the Regal China products that feature her.

MIB - Mint In Box. Any item, but often a toy, that is in the same condition as new and in the original box.

MOP - Mother of Pearl. Polished nacre usually derived from mollusk shells. Typically found in jewelry, ladies dresser articles, buttons and in the windows of RPOG art.

NIB - New In Box. Similar to above but often assumed to be of modern production

NOS - New Old Stock. Old merchandise, often with original manufacturer's tags and merchant's price tags, that has never been sold or used.

NWOT - New With Original Tags, but sometimes used as New With Out Tags. eBay sellers are usually guilty of using this both ways. If buying online, clarify before bidding.

o/b - Outboard. An outboard motor.

OOB - Oil on Board. Art work done on a board, usually Masonite.

OOB - Oil on Canvas. Art work done on canvas.

Pre Pro - Pre Prohibition, prior to 1920. Refers specifically to alcohol related advertising.

Post Pro - Post Prohibition, after 1933. Refers specifically to alcohol related advertising.

QA - Queen Anne. Generally refers to a 1920's or 30's revival style exemplified by a cabriole leg.

Repro - Reproduction. A good definition would require a separate article but you get the idea. Occasionally people will use the slang "Repop" for repro or "Repo" which is inaccurate and what happens to your car when Vinnie pulls up in a tow truck.

RPOG - Reverse Painted on Glass. Less common as ROG. Any item where the design or artwork has been applied to the obverse side of the glass but typically a lamp shade, decorative framed art or advertising items.

RPPC - Real Photo Post Card. Differentiates a post card that was printed, (developed) off your film from one that was commercially printed. These were so popular that Kodak marketed the 3A folder specifically for the RPPC.

RR - Railroad.

RW - Red Wing. Red Wing, or less often, the several other stoneware companies that called Red Wing, MN their home.

/s/ - Signed.

s/g - Salt Glaze. Refers to the type of glaze used on stoneware and to differentiate it from the later, more common, zinc glaze.

TOC - Tin Over Cardboard. A type of sign made of tin wrapped over a piece of paperboard and hung by a piece of short thread mounted to the back side of the sign. Commonly used in the 1930's and 40's by brewing and other industries.

T&S- Time & Strike. Refers to clock movements. Differentiates between time only and striking movements.

St. Louis Indian Western Art Show & Sale On November 3rd

Article by Carolynn Boehmer (Gateway Indian Art Club) & Photos by John Welsch

The Gateway Indian Art Club of St. Louis was founded in the early 1980's by Todd Boehmer, Virgil Laux and Ben Thompson, three men who have been long time collectors and members of the Greater St Louis Archaeology Society. Although they started their collections with primarily stone tools, they had a great appreciation for the beauty of Indian Art which included pieces of bead work, quill work, pottery designs, basket designs, rugs and jewelry. They felt that an organization that focused on these pieces would benefit collectors and dealers in the St Louis area by connecting with others who recognized the artistry in each piece.

So join us for the St. Louis Indian Western Art Show & Sale on Saturday, November 3rd from 10:00am to 5:00pm & Sunday, November 4th from 10:00am to 3:00pm. Admission is \$5 & early admission is \$25 at 9am Saturday. The show will take place at the Holiday Inn Route 66 Hotel, 10709 Watson Road at Lindbergh (near I-270), St. Louis, Missouri 63127.

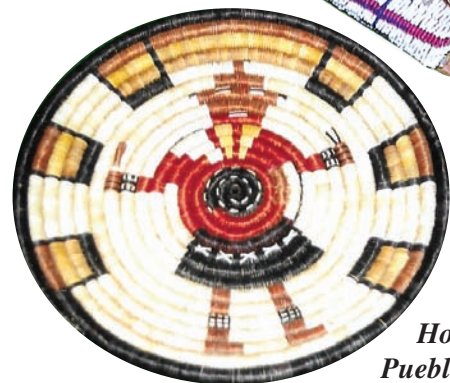

The St. Louis area has a rich Indian heritage and there were many Indian Mounds within what is now the city of St. Louis when it was first being settled. We have a fabulous treasure nearby at Cahokia Mounds in Cahokia, IL and something we can be proud of. Additionally, the St Louis Art Museum houses the outstanding collection of St. Louisian, Donald Danforth, a long time collector of Indian artifacts.

The Gateway Indian Art Club of St. Louis has sponsored a major show every fall for more than 30 years which brings collectors and dealers to our area that shows the fine workmanship within the Indian Culture. Our show brings together collectors from all over the United States and is open to the public. It is our hope that when people see the beautiful items, it will form an interest in younger generations to perpetuate a strong interest in this unique culture and will carry into the future.

Regina Changer Music Box Brings \$11,500 at Donley Auctions

Article & Photos by Dana Wolf

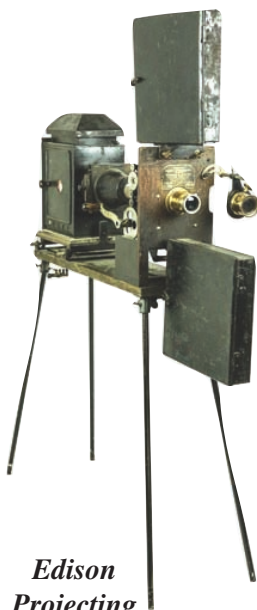

Other high selling highlights include other Regina models, such as the folding top "casket style" music box, sold for \$8,395, and the Hexaphone Model 104 coin op phonograph, sold for \$6,900. Other interesting items included a Western Electric Record Lathe, sold for \$6,325. The Pathe Concert B disc phonograph was sold for \$1,840 to a very excited collector on the east coast. They had been looking for this unique machine for a very long time. We had an incredibly rare machine, the Ultraphon disc phonograph, sold for \$1,265, that features two reproducers and two

horns, creating a very unique "surround sound" effect. We had two rare machines; a Rare Western Electric 555W and 555 Receiver Speaker which sold for \$5,462 and \$4,025 respectively. Bidders from all over the world joined Donley Auctions, from Australia to Korea. It was an interesting and unique auction that was well met with bidders.

Donley Auctions is located at 8512 S. Union Rd. in Union, Illinois. We can be reached at 815-923-7000, by email: DonleyAuctions@outlook.com and be sure to visit our website: www.donleyauctions.com. "We don't just sell antiques, we build relationships."

Antiques School Releases List Of Top Sellers For 2017

The latest results from the Ashford Institute (a professional-level distance learning program on antiques, collectibles and appraising), recently published its annual survey of top buying trends within the antiques and collectibles community this past week.

The Institute, which has been conducting the industry related survey for over six years now, released its latest trending data on decorative arts sales for 2017 via a dedicated page on the school's web site. The survey, which focuses on compiling and grouping information related to customers buying habits over a twelve month period, came about as a result of strong interest from readers requesting updates from previous surveys, said current Director of the Institute, Charles Green. He went on to note that there were some interesting changes in the poll results this year. "Our questionnaire has become more detailed, resulting in answers that are more period and genre specific. We're really able to drill down now into the types of antiques and vintage items that are actually selling well within a 12 month period." Green also acknowledged that the increase in poll-participants (up 15% over last year), had led to more accurate survey numbers in regard to particular sales categories. "More data has simply given us better survey results," said Green.

The school's lead Poll Researcher, Tony Frey, echoed Mr. Green's sentiments and went on to say that the main goal of the Institute's survey was to provide meaningful analysis of measurable interest in current trends within the antiques and collectibles marketplace, based on actual sales results and requests for specific items from vendors.

Frey, who has worked on all six of the school's past polls, noted that while the survey was based on a general series of questions, and did not employ any standardized formulas, the overall results were still very revealing when looked at as a whole. "The shift in what's considered collectible is continuing to change, and at a more accelerated pace than ever before," said Frey. "For the last few years it's been Mid-century modern, but this year we're beginning to see some cracks in that crown."

Some of the other highlights from the poll included a resurgence of all things Western. "We're seeing a revitalized interest by the public in literally anything related to the American past and particularly the wild, wild west" said Frey. Other top sellers on the school's list include a few industry standards such as Star Wars items, space related toys from the 1960's and 70's, as well as automobilia and related mechanical items. Frey noted that just as in past polls, the most visible movement in collecting genres was being reported by younger dealers, who indicated that consumer tastes seemed to be trending towards virtually anything related to the latter half of the twentieth-century. "The reality is the younger collectors are the one's moving the ball forward now," said Frey, "the rest of us just appear to be along for the ride."
