

# BALTIMORE INTERNATIONAL SOCCER ACADEMY

## MISSION

**We Teach, We Develop, We Nurture: Soccer Skills**

## VISION

The BALTIMORE INTERNATIONAL SOCCER ACADEMY (BISA) is dedicated to providing an economical, recreational soccer program for children of Baltimore and surrounding areas. This soccer program includes the development of a healthy attitude toward sportsmanship and respect for authority together with instruction in soccer rules, skills and elements of team play. To provide the necessary support for the program, BISA will recruit and provide training for coaches, referees and board members who share similar attitudes and philosophies about recreational and competitive soccer.

BISA believes there is a need for progressive challenges in the program for both players and coaches, however, the club does recognize in certain instances these challenges might be better met in more competitive programs offered in other local soccer leagues.

## PHILOSOPHY

Utilizing the small-sided approach to develop creative, well grounded, technical, tactical, physical and psychosocial players, while promoting the importance of good sportsmanship, the benefits of a healthy lifestyle and the value of being academically inclined.
