

April 2018 Lapidary/Jewelry Meeting

The ETGMS April Lapidary/Jewelry Group meeting was held Saturday (April 14) at the club's new clubhouse at 2:00pm. The topic for the day was a lesson from Kinney Polve on how to make a "tree of life" pendant. He brought enough materials so that everyone could make a pendant of their own. Attendees are asked to bring their latest projects to the meeting to show everyone what they have been doing and explain how they did their project.

The Lapidary/Jewelry Group was set up to help you learn new techniques and new skills. No individual is skilled in all the lapidary/jewelry making arts, but at least one person in the group may be able to help the rest of us learn something new. So, don't be shy, let us know what it is you want to learn, and we'll try to find someone who can help us out if Kinney or I don't know how to do it.

As you can see from the photos below, this art form provides ample latitude for letting your creativity bloom.
