

Premium Remanufactured Toner Cartridges

ENVIRONMENTAL LEADERSHIP

EcoPlus is committed to environmental leadership in all of our business activities from operations to product design and to recycling. All EcoPlus products utilize recycled components and packaging material in order to reduce landfill waste and natural resource usage. In addition, EcoPlus follows strict environmental guidelines in its manufacturing to minimize pollution and waste.

PRODUCT QUALITY

EcoPlus products are manufactured under stringent quality control guidelines to ensure the highest level of quality and reliability. To control quality, EcoPlus follows a Global Quality Management System, which has received ISO 9001 & ISO 14001 certification. This system allows us to maintain high production standards, while ensuring continual design improvements into current and future products.

VALUE AND INVESTMENT

EcoPlus believes that "Being Green" does not mean "Paying More". We focus our product development efforts on finding products which deliver significant savings to the customer, while providing a more environmentally friendly solution to competing products. EcoPlus Premium Toner Cartridges deliver savings of up to 50% compared to the OEM, while at the same time having a significantly lower environmental impact than a new cartridge.

MAKING A DIFFERENCE

We believe EcoPlus can make a difference and we know with the help and support of more people, we can make a bigger impact in our society and our environment. Customers will appreciate the ecologically friendly commitments printed directly on the box and will know when they purchase EcoPlus products, they have contributed to our social responsibility in restoring our environment and enriching our society.

SOCIAL RESPONSIBILITY

EcoPlus is more than a product line. It is a belief that everything we build and sell should have a positive impact on our society and our environment. As part of this belief, we are devoted to ensuring that our company, products, employees and suppliers follow socially responsible business practices.
