Adjourned

It's been a surprise to see the sun still shining so late in October with little to no rain. We had a good turn out for the breakfast then cruise to Hometown Furniture in Lebanon. If you've never been there it's a real eye opener with how they put all the old trucks and cars into displays. Planes, gliders, old garages and cars, a Cadillac standing on it's back bumper. Most of us had never been there and were quite surprised. It's great to have people in the club that like to cruise their hot rods. Also, this month Dave Cartwright has set up another volley ball game against the Rollin' Oldies car club. It's going to start at 5:30 pm November 9th at the Calvary Baptist Church.

The fall Albany swap meet is mostly indoors and is going to be on Saturday November 16th. I always find something I have to have until I get it home. Of course, there is the A Project every Thursday night at Jeff Fosters shop. The car looks like it's really making progress. I know a few have learned new welding and bodywork skills along with new friendships. Remember to bring your unwrapped toy donations to the club meeting for the Family Building Blocks toy drive to be delivered Monday December 9th. The Club Christmas party will again be at Roth's West Salem on December 14th. Get your homemade tree ornaments ready to win the big prize. Next month also is the Santa Cruise at the Stayton Fire Station, more to come. A big thanks to John Stanton for putting the Fall Color cruise together Saturday October 26th. We're always looking for volunteers to host a garage tour, potluck or cruise to keep the club active during the winter months.

Enjoy the building season,

Ray

WVSR.org is YOUR website! With that in mind there is a new comment box on the "Club Info" page that allows you to send comments anonymously. Tell us what you like, what you would change, or what you would like to see that isn't on the site. We are also still looking for an extra pair of hands to edit the site. Easy to learn and simple to navigate just contact Garry at a club meeting, through the website "Contact Us" page, or via email at wvsrhq@gmail.com. Please don't forget to email a photo of you and your car for the "members rides" page or get with Dayle (member at large) or Garry (webmaster) to get your photo taken at a club meeting or event. Thank you everyone who has already contributed to the site. YOU are what makes it great.

## Hometown Furniture Tour

Who would believe that 17 WVSR members would take a garage tour to a Furniture store! Well, we did. After breakfast at the Hometown Buffet on Saturday, October 12, we caravanned to Lebanon to the Hometown Furniture store. The store was huge, I'd guess about 30,000 square feet, and it was packed with furniture and home decorating accessories very artfully displayed among scores of antique vehicles airplanes, boats, wagons, buggies, stuffed animals and other historic memorabilia and collectibles. These few pictures are not adequate to describe the place, you must see it for yourself.

## Member Profile: Bill & Suzie Watson

Bill and Suzie are both California transplants. Suzie lived in Imperial Beach, and Bill in Roseville, California. Suzie migrated to Oregon in 1970, and Bill came in 1990. Then, they finally met and on June 15th, 1995 they were married. The couple have called Mill city home since then.

When I first met this couple, we were at the '50's in the Fall ' car show in Lebanon. They were showing their 1965 Cadillac Calais. They say they also have a

"work in progress", a 1939 Chevy Master Deluxe.

Bill is a retired sheet metal worker and I was pretty impressed with some iron-work I saw that

he had for sale at the show. Amazing pieces that Bill

fashioned out of iron. Locomotives, tractors, motorcycles, and several other creative items. He is a vendor at the Steam

Up in Brooks.

Suzie is a real go-getter. She has worked at several jobs. Human Services for Marion County, waitress, and a long haul trucker!

The last nine years Suzie has worked for H & R Block. Combined the couple have 5 children, 1 boy and 4 girls. They are also busy being Grandma and Grandpa to 12 grandchildren!

Suzie asked Bill what his most embarrassing moment was and all she got was "private"! But she has one to tell. Here it is in her own words:

"The most embarrassing moment I can think of? I parked my car at Sears in Salem, went shopping and came out a different door than I had entered. When I parked, I knew exactly where I had parked...how many rows to the door, but now it was nowhere to

be seen. The car was not there! Of course I thought it was stolen. After the store security had driven me all over the lot (with me insisting that I KNEW where it was parked), we found it--2 rows over--4 cars in front of the door! Different door!! I felt so stupid."

I am glad these nice folks are part of our club, and they are so interesting I think you will enjoy visiting with them. Go shake hands and introduce yourself.

## Tyler Wood, this years recipient of the Willamette Valley Street Rods Scholarship

July 26, 2013

The Chemeketa Community College Foundation 4000 Lancaster Drive N.E. Salem, OR 97309-7070

Subject: Thank you for my Willamette Valley Street Rods Scholarship

Dear Donor(s):

Thank you for awarding me with the Willamette Valley Street Rods Scholarship. I am honored to have been considered for this scholarship and very thankful to be receiving it. I have learned a lot during my first year in the automotive technology program at Chemeketa Community College and look forward to my second year.

I have always enjoyed working on cars, old classic cars being my favorite. Through the knowledge I have gained this past year, and the access I have to my teachers in the automotive technology classes, I have learned so many different areas of the automotive field I had not been introduced to before. I have since swapped out a motor and transmission, replaced front end bushings, shocks, springs, set timing, tuned carburetors, replaced brake boosters and master cylinder along with a complete brake job as well as many other mechanical functions on my own vehicle at home and would not have been able to without what I have learned from the program and from troubleshooting with my teachers. The automotive technology program at Chemeketa Community College has been a very positive experience for me and I really look forward to the knowledge I will gain this next year.

The Willamette Valley Street Rod's Scholarship will enhance my second year in the automotive technology department at Chemeketa Community College in paying for school expenses. I know I will be able to continue with my education next term because of this scholarship.

I cannot thank you enough for honoring me with the Willamette Valley Street Rod's Scholarship. This scholarship really does help students in the automotive technology program at Chemeketa Community College because I am living proof of it.

Sincerely,

*Tyler Wood*

## 2013 Fall Colors Tour

Today was another great day for a WWSR Car Cruz. John Stanton put together another awesome tour. We started out at the Parking lot at Kmart in Salem with about 10 cars . Left Kmart and went to Turner, Aumsville, Sublimity and Stayton, where we meet up with more club members at the Stayton McDonalds. We picked up 6 more cars, which gave us a total of 16 Cars in the tour. John lead us though the beautiful country side and back roads of Stayton, Lyons, Mill City and Gates. At the end of the tour, we stopped at the Gingerbread House for lunch and to swap stories with friends. Just as John said the weather held out for us, we had some rain drops, sun and clouds, but a great October day in Oregon . It was a fun time for all.

Once again thank you John for putting on a great day. Look forward to the next one.

Today is my birthday and life is good! I have survived two near death experiences, but I am getting ahead of my story.

I was given life 43 years ago at the Volkswagen factory in Wolfsburg, Germany. I am a beautiful, blood orange 1971 Karmann Ghia. I heard my builders talking. They said, a couple named Magnus and Hedwig would be arriving from America any day to adopt me. They will tour Europe with me and then ship me to their home in California, it sounds like a lot of fun. I will have to exchange my pretty oval license plates for those boring square ones.

Magnus works for a German sawmill equipment manufacturer and makes sales calls all through the United States. Hedwig and I are always eager to see him when he returns from his business trips.

I overheard Magnus and Hedwig talking. They are planning to leave Los Angeles and move to Salem, Oregon. Magnus says that Oregon is less crowded and closer to the sawmills where he sells equipment, he will drive me to some of those mills.

Magnus has retired, he says he is getting old, now I just sit in the garage - they always take Hedwig's little sedan now when they leave home- what a drag.

Charles, who lives next door, came over today. He wants to buy me and give me to his grandson when he turns sixteen. Ouch! I am suffering a near death thinking of being owned by a teenager-what can I do? Now I sit in Charles' garage just waiting for the dreaded sixteenth birthday, Charles does not drive me, I just sit.

Charles died! I have been inherited by Robert, the teenager is no longer in the picture. Now I continue to sit under a car cover in Robert's shop. Robert likes muscle cars, the last time we were at the beach he kicked sand in my face. While Robert works on a Hemi, I just sit under my car cover. Twelve years have passed and I just continue to sit under my car cover. I overheard Robert and his wife, Lisa, talking. Lisa wants to turn me in to a Baja Bug. I just experienced near death number two!

Some guy named Jim came to see me today. Jim and a friend were talking cars while enjoying glasses of beer. Jim had owned two Karmann Ghias when he was younger and regretted ever selling them. The bartender, a friend of Roberts, said he knew of a Ghia that might be for sale, and it was only a couple of miles up the road.

Jim came by again today with his wife, Jenny, and she was carrying her checkbook. I had been sitting so long that I

wouldn't start, but Jim and his friend Bruce showed up with a few new parts and in a couple of hours we were able to drive the three miles to my new home. Jim tells me that he is going to return me to original condition and immediately begins the process. Having avoided two near death experiences, I am in pretty good shape and again life is good.

Jim took me to my first car show today, a place called C J's Hot Rod Shop, it was his annual picnic. There were a lot of cars there my age and older. Hey! we won a trophy, "Cool Coupe", what a pleasant surprise.

Jim and I are feeling great, we decide to see if we can find Magnus and Hedwig, we have their address. They are in their mid eighties now - will they remember me? We have no trouble finding their house. Hedwig answers the door and is excited when she sees me in the driveway. Magnus is taking a nap, but wakes up and is more excited than Hedwig. They

sit in me, start my engine and take pictures - what a great day!

Jim and I continue to go to car shows, so far we have won four trophies and we have just begun.

## Curiosity gets the Priest

Father Frank, in urgent need to use the bathroom, walks into a local bar. The bar is jumping with loud music and lively conversation, but every few minutes the lights abruptly go off. Every time the lights go off the bar crowd bursts into loud whoops and applause, but when they see the priest enter the bar the place becomes absolutely quiet.

Father Frank walks over to the bartender and asks, "Can you please tell me where your bathroom is?"

"Sure, but I have to tell you father, there's a statue of a naked woman in it and she's wearing only a fig leaf"

"No problem, I'll just avert my eyes then," Said Father Frank.

The bartender then shows Father Frank to the far side of the bar where the bathroom is located. After a short while, Father Frank comes out of the bathroom and the bar crowd pauses only long enough to give him a rousing cheer. Perplexed he goes over to the bartender and asks, I'm puzzled. Why did they cheer for me as I came out of the bathroom just now?"

Well father, it's because your curiosity has made you human and likeable, just like us," said the bartender. "May I pour you a drink?"

"No thanks you, but, I'm still puzzled," said Father Frank. "You see, father," chuckles the bartender "every time somebody moves the fig leaf on the naked woman statue, the bar lights go off. Now, what do you say to that drink?"

Sharon gave Frank a Surprise Birthday party on Sunday October 13th. It was such a gorgeous afternoon and fun to be out in the country... Sharon's son Justin and his wife and 4 kids live out there. I loved seeing the horses, dogs running around and everyone having a good time.

Frank looked so shocked to see us out there when he arrived. It was really fun to be there sharing his birthday with him and Sharon and their family.
