

«Young People's and Children's Division of the Women's Missionary Society»

A. Purpose:

- To get young people involved in the Christian Mission and teach youth how to respond positively to persons in need, as well as sick, handicapped, un-saved, and un-churched.

B. Objectives:

- To provide meaningful youth training programs in all areas of church life that will provide for full participation in the total mission of the church
- To give specific training to youth for evangelism in reaching un-saved youth
- To provide opportunities for leadership experience for mission and witnessing Christ among young people
- To reach those in poverty and help meet their needs
- To reach those youth that are confined in correction centers and witness Christ to them and,
- To conduct a tutorial program for youth in public schools who have learning problems.

C. Organization:

The organization of the YPD'ers objectives and activities do not overlap or conflict with the other disciplines of Christian Education, but rather complement them. The YPD'ers should stick primarily with involving youth into Christian Missions. All Christian youth must participate in all disciplines of Christian Education in the local Church to effectively grow into the Christian Faith.

D. Books, Material, and Equipment:

Such as The YPD'ers Handbook should play a vital role in developing youth and preparing them for service to the church community.
