# PRESS RELEASE

December  
2012

## **For Immediate Release:**

A prevalent stigma has been place upon The Moorish Science Temple of America-1928 and its faithful members over the years due to the growing occurrence of this so-called Moorish Sovereign conception.

For years [The Moorish Science Temple of America-1928](http://www.themoorishsciencetempleofamerica.org) has openly spoken out against those who have made false claims of being Moorish Americans while claiming being Moorish Sovereigns, Moorish Indigenous, Moorish Nationals, Moorish Republic and alike; who continues to willfully deceive individuals seeking financial relief by charging absorbent fees for the filing of frivolous UCC Financing Statements, Common Law Liens, Land Patents, Security Agreement and Nationality/Naturalization Declarations amongst many other conjured court filings in regarding themselves above the law; free from paying taxes and their accrued debt obligations by procurement of their so-called "Straw-man".

[The Moorish Science Temple of America-1928](http://www.themoorishsciencetempleofamerica.org) is a lawful and legal recognized religious organization which was founded by Prophet Drew Ali in 1913. Our most essential goal is to uplift fallen humanity by simply informing, educating and uplifting with the teachings of the pure faith of Islam, our History which has been all excluded from the American history and our true Nationality. The principles of how we govern ourselves are built upon love, truth, peace freedom and justice which are woven within our Constitution and Bylaws.

We have been fraudulently and unethically attacked by the [Southern Poverty Law Center](http://www.southernpovertylawcenter.org) amongst other groups with their false claims of fighting hate and bigotry, in seeking justice for the most vulnerable members of society. As they have clearly showed their hatred and bigotry by listing us "The Moorish Science Temple of America-1928 within their Active 'Patriot' Groups listings in the United States being amongst many that has label themselves as being "Sovereign Citizens" clear enemies of the United States of America government. This idea goes against the very fabric and the general ideas of any true Moorish American Moslem way of life; everything we do begins and ends in totally peace.

[The Southern Poverty Law Center](#) is not alone in their devious actions in propagating false accusations against us; as [The Moorish Science Temple of America Inc](#) under the uncouth present leadership of R. Jones –Bey and V-Jones-Bey; headquartered in Washington DC has lead a full backdoor spear campaign to villainize us stating that we propagate the sovereignty citizen idea of not obeying the laws of the USA and that somehow we believe we are free from paying taxes and having state driver license. The Moorish Science Temple of America-1928 has openly and will continually speak against those with such claims of being Moorish sovereign and thinking somehow they are above the laws; willfully disregarding the laws of the Country, State and County with their bogus claims of being Moorish Americans or having some affiliation with us; we have nothing but harsh words for such unlawful actions, we will continue to openly attack such ideas. We have been sought out by the News media and many State governments as well as the Canadian government to identify these lawless so-called Moorish Sovereigns who have made false claims of being members within The Moorish Science Temple of America-1928.

The Moorish Science Temple of America-1928 has received countless commendation and recognition for its outreach programs that continues to assist men and women who are presently incarcerated seeking to change their lives for the better; morally, spiritually and socially as being betterment to society and not a detriment.

No member within The Moorish Science Temple of America-1928 can be found dealing with anything in relations to the sovereignty citizen movement, filing frivolous UCC and Naturalization documents, driving with fictitious “Right to Road Travel” plates and identification in lieu of a State issued driver license; we are law abiding citizens seeking to be and live in peace.

The Sovereignty movement at present is Infecting Prison State and Federal with a gaining influence from those claiming to be Moorish Americans or some false affiliation with The Moorish Science Temple of America. As stated by the American Defamation League (ADL) *As a result of imprisoned sovereign citizens continuing to recruit and teach their ideology while behind .bars, a growing number of federal and state prisoners are becoming sovereign citizens or using the "paper terrorism" tactics of the movement to retaliate against judges, prosecutors and others involved in their case. Prison officials have so far had little luck in stemming the growth of this movement in prisons.* The Moorish Science Temple of America-1928 is presently working with the department of corrections to offset this growing nuisance by informing and educating prison officials across the country about the teachings and practice of true Moorish Americans who are active members within a legitimate Temple.

Please note that [The Moorish Science Temple of America Inc.](#) headquarter in Washington DC; though is (we) recognized it as a legitimate group; holds no power of authority or is in any association with The Moorish Science Temple of America-1928. We differ greatly in our practices and teachings of the faith of Islam that has been taught by the founder and our Prophet Drew Ali.
