

1717L 17-inch Desktop Touchmonitor

The 1717L zero-bezel touchmonitor is built to withstand the rigors of continuous public use with a rugged, “built for touch” industrial design. It delivers style and performance with a wide variety of features for a higher level of functionality. It is well suited for public venues where point-of-sale (POS), point-of-information (POI), point-of-service, shelf-level and countertop interactive digital signage, loyalty systems, kiosk information systems are found.

The optional 3-track magnetic stripe reader (MSR), programmable to either HID or Keyboard Emulation, is easily installed by the user, providing an elegant, integrated solution and eliminating the need for external brackets or attachments. The 1717L features two leading zero-bezel touch touchscreen technologies for a smooth, easy-clean surface: AccuTouch five-wire resistive technology, the most widely used for retail applications and proven to survive splashing liquids, food and grease; iTouch pure-glass surface wave technology, for the ultimate in optical quality for dry retail and hospitality applications.

The 1717L Touchmonitor is environmentally friendly, lightweight and uses less power with state-of-the-art LED backlights in the display panels.
