## March, 2014

The following is the current list of bats for fast-pitch softball that are **BANNED** from being used, per the National Federation of State High Schools Association Softball Rulebook. Please note that the list does not have the bats that do not have the certification marks. They have been deleted from the list. Again, all bats must now have the **ASA Certification Mark of 2000 or 2004**, and bats will be checked by the umpires at each game. The CSAA has adopted this list and is to be followed (please note that there are several new bats that have been added to this list:
