## Letter to Employers

American Education Certification Association is a professional certification agency providing certification for various disciplines which includes allied healthcare, rehabilitation, sports/fitness, administrative and technology certifications, our main aim is to test our candidates with industry based standard exams in which the candidate displays the knowledge gained during the period of study in a chosen professional discipline.

Candidate applying for American Education Certification Association get certified in a ascending stepwise process which starts by submitting proof of education and then finally by challenging the National Certification exam. Upon successful completion and scoring, a minimum of 70% on the exam challenged, the candidate is designated as a certified professional for that discipline.

We at American Education Certification Association strive hard to maintain our certified candidate information, which can be verified by the employer at any time. Just fill in our employee verification form at [verify employee](#).

We work with academic institutions by adhering to standards by which we stand, on successfully satisfying our requirements we work with schools to certify their candidates after the candidate receives the training through that school. Strict proctor/examiner monitoring is maintained at all times during the sessions of the exam.

We provide academic institutions with competency checklist for individual skills under specific professional discipline along with a multiple choice exam; this competency checklist is used by the institution of training as an additional component to the current clinical skills which are taught to the student during the course of study at the institution. The reason we stand out different from the traditional way of testing knowledge is by evaluating both, clinical competency checklist skills and subject matter knowledge. The following mentioned certification exams consist of clinical competency checklist skills and knowledge based examination.

- **Medical Assistant and Clinical Medical Assistant / Specialist**
- **Patient Care Technician / Assistant**
- **Phlebotomy Technician**
- **EKG Technician**

Certification exam is a standard way of testing the knowledge attained by the candidate during the period of study. Our certification is valid for 1 year, in which the candidates have to attend continuing education unit to maintain their knowledge and renew their certification.

We offer various certifications apart from allied healthcare certifications, which are as follows

- **Medical Billing & Coding**
- **Coding Professional (Physician & Hospital)**
- **Medical Administrative Assistant / Office Specialist**
- **Medical Software / Insurance / Pre-authorization Specialist**
- **Electronic Health Records Professional**
- **Clinical Massage Therapy**
- **Strength & Conditioning Rehabilitation Specialist**
- **Computer Skills Specialist**
- **Sports/Fitness Nutrition Specialist**
- **Rehabilitation Therapy Assistant**
- **Rehabilitation Exercise Specialist**
- **Rehabilitation Therapy Technician**
- **Personal Trainer Specialist**
- **Restorative Care Assistant**

All our exams are prepared by industry based standards surveyed by experts from prospective industry to maintain the standards of the exams.
