Well able to hear the lecturer at all times.

A wonderful learning experience. The teacher was exceptional and the small class size gave all of us the opportunity to participate fully.

### Please tell us what you were most satisfied with in this lecture series.

The lecturer judged the level and areas of interest of the group perfectly and tailored her lectures to suit. She encouraged and supported lots of discussion in pairs which gave us good practice. She has a wonderful sense of humour, which made the series very enjoyable. I appreciated that she always gave different words or pronunciation for various Spanish speaking countries to help us with our travel plans.

Excellent lecturer, good interaction between participants.

The lecturer was well prepared, engaging, interested in tailoring the material to suit our interests and needs, yet kept on schedule. I can't recommend her more highly.

The lecturer was excellent - always very well prepared and tuned into the needs of students. She has wonderful people skills, a great sense of humour, and can motivate even the most reluctant/shy students to participate.

I feel like I can actually understand some Spanish conversations!

The lecturer gave well-structured lectures with lots of time for questions. She was very patient with us and open to all our questions.

I was most pleased with the entire way that the series was presented and that it reawakened in me the desire to continue learning.

All of it! Engaging, practical, and a great group size.

The congenial atmosphere. The attentiveness of the lecturer to each student's need. The complete absence of stress during the classes.

Ioana had obviously put a lot of thought and preparation into the series. She built our knowledge module by module through repetition, practice, audio, and video clips in an engaging and lively manner. I feel like I have an excellent foundation to move forward in learning more Spanish. My reading and vocabulary has improved considerably in six short weeks. She was a good listener, had a great sense of humor, but kept things moving in a professional and systematic manner. She was an excellent teacher.

The approach: repeating after the lecturer to ensure correct pronunciation while reading; learning the essential verbs first (to be and to have) while always introducing useful vocabulary to go with it; the statement of communication goals at the start of each module; the actual topics themselves, which were extremely useful for travelers going to Spanish speaking countries; the use of some videos and dialogues; explaining what is said in Spain and what is said differently in specific Latin American countries; the lecturers willingness to answer our constant questions; her good humour, patience, and knowledge.

The lecturer was extremely patient with us Spanish language beginners, she answered all of our (many) questions, she was very well-organized, and she was able to tailor the material to our needs.

loana is an excellent lecturer. As a former teacher myself, I marveled at her patience and was very impressed with her preparation and organization of instructional materials. I felt very fortunate to have her as a lecturer.
